

Roseville Station Upgrade

May 2022 – Finishing work

Transport for NSW completed the Roseville Station Upgrade in late 2021 with the community now enjoying the station's new and improved accessibility features.

Upcoming work

Some minor finishing work will be carried out at Roseville Station. The work includes **relocating a light pole** from the rail corridor to the station platform.

This work is planned to take place between **7am to 6pm on Saturday 7 May 2022** during a scheduled Sydney Trains trackwork weekend when no trains are running and the station is closed. This enables the construction team to safely carry out essential activities.

Equipment including various hand tools will be used and we will ensure every effort is made to minimise any associated noise. We apologise in advance for the inconvenience caused and thank you for your patience and understanding while we deliver this important work.
