

Transport Access Program | February 2022

Stanmore Station Upgrade

Have your say

The NSW Government is improving accessibility at Stanmore Station

Planning is underway to improve accessibility at Stanmore Station. Two new lifts will make it easier for people with disabilities or limited mobility, parents and carers with prams and customers with luggage to enter, exit and move around the station.

Transport for NSW invites your feedback on the proposed Stanmore Station Upgrade and the Review of Environmental Factors (REF) from **1 February to 15 February 2022**.

Key features of the proposed upgrade include:

- two lifts – providing access to all platforms
- family and easily accessible toilets on Platforms 1/2
- accessible ramp from the station to Trafalgar Street
- regrading works to the station underpass
- regraded station entrance and concourse on Douglas Street
- kiss and ride bay on Douglas Street
- new accessible parking space on Douglas Street.

Stanmore Station Upgrade

Stanmore Station as it is now

Proposal benefits

The proposed Stanmore Station Upgrade would provide the following main benefits:

- a station with improved accessibility to people with a disability, limited mobility, parents/carers with prams and customers with luggage
- modernisation of the existing station buildings and interchange facilities to meet the needs of a growing population
- improved interchange and access facilities for all customers using Stanmore Station.
- removal of two small red flowering gum street trees to accommodate the new accessible parking space and kiss and ride bay on Douglas Street. Offset planting will again be provided
- replacement of two timed two-hour car parking spaces on Douglas Street to provide the new accessible parking space and kiss and ride bay.

Impacts

The following key permanent impacts have been identified should the proposal proceed:

- changes to the pedestrian underpass and station platform buildings
- minor changes to the overall built form of the station
- minor impacts to the existing station building from the introduction of new elements, such as the new lifts
- removal of one large Lilly Pilly tree and five small Orange Jessamine shrubs to accommodate the lift shaft on Platform 3. Offset planting will be provided

Why are accessibility upgrades needed at Stanmore Station?

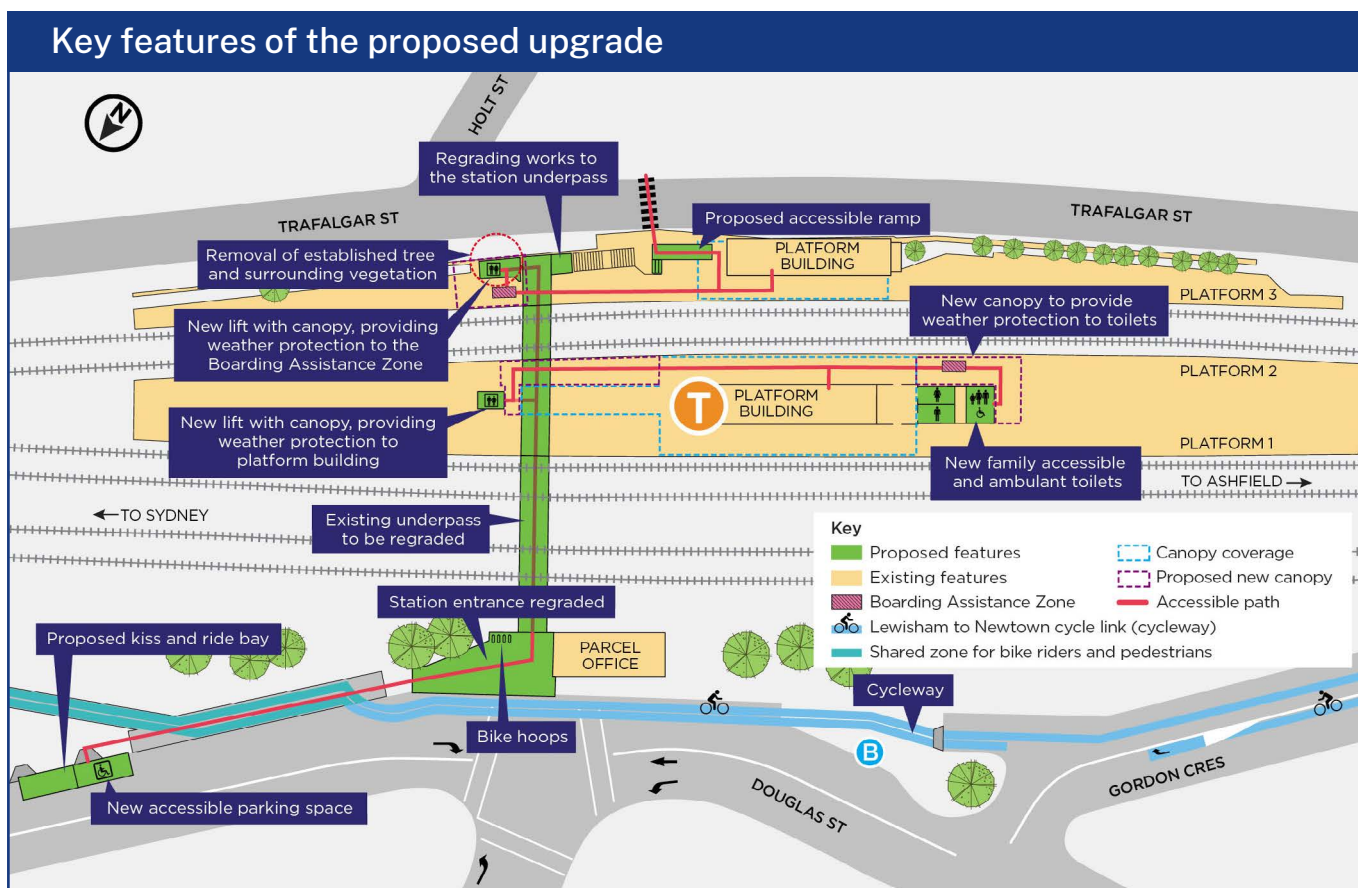

Stanmore Station does not currently meet key requirements of the Commonwealth Disability Discrimination Act 1992 and the Disability Standards for Accessible Public Transport 2002.

Upgrading the station will make Stanmore Station accessible to customers with disabilities or limited mobility, parents/carers with prams and customers with luggage.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

How to provide feedback

View the proposed upgrade and fill out the online feedback form at transport.nsw.gov.au/stanmore or by scanning the QR code. You can also provide feedback by emailing projects@transport.nsw.gov.au or calling **1800 684 490**.

Under normal circumstances Transport for NSW would hold community information sessions at the station. We regret that we do not intend to do this due to the COVID-19 social distancing measures. We will however be available to respond through the project email address and phone number.

Have your say on the concept design and provide feedback on the Review of Environmental Factors until **Tuesday 15 February 2022**. Your feedback will help inform the proposed design of the Stanmore Station Upgrade and conditions to minimise impacts should the proposal proceed.

Contact us

If you don't have access to a computer and would like a copy of the Review of Environmental Factors report to be posted to you, if you would like more information about the Stanmore Station Upgrade, or would like to get future email updates, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

We will keep the community informed with regular project notifications and online updates published on the project website transport.nsw.gov.au/stanmore

For all urgent enquiries or complaints about works, please call our 24-hour Construction Response Line on **1800 775 465**.

Planning approval and consultation process

Transport for NSW develops initial concept design options for the project, including identification and consideration of environmental constraints, risks and opportunities.

Transport for NSW conducts early engagement with identified stakeholders to obtain preliminary public feedback on concept design.

We are
here

Transport for NSW prepares a Review of Environmental Factors for public display and invites submissions.

Transport for NSW assesses and responds to feedback and prepares a submission report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.
Conditions of Approval made available on Transport for NSW website.

Construction commences subject to compliance with conditions.

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on **131 450** and ask them to telephone Transport for NSW on 1300 684 490
