

Transport Access Program

Waitara Station Upgrade

Project update - Site investigations March 2022

Waitara Station Upgrade will be delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure, especially for people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

As part of the planning process, preliminary investigations are required to inform and progress the project design.

Site investigations

Underground service investigations, site surveys, photography and site inspections will be carried out around the station precinct. The work will be carried out between **Friday 25 March and Friday 1 April 2022**, weather permitting from **7am to 6pm, Monday to Friday** and is expected to take **up to two days** to complete, weather permitting.

Equipment to be used includes survey equipment, vacuum suction truck, and power and hand tools.

Changes to car parking spaces at Alexandria Parade

Up to nine parking spaces will be temporarily unavailable for public use between **Friday 25 March and Friday 1 April 2022**, weather permitting. These spaces will be used to create a safe working space for the vacuum excavation truck away from live traffic on Alexandria Parade, near Orara Street.

The remaining parking spaces will continue to be available for use throughout the working period.

We thank you for your patience and cooperation while we carry out this important work.

Keep in touch

We will continue keep the community informed with regular project notifications and updates on the project website www.transport.nsw.gov.au/waitara

If you wish to be added to the project email distribution list, or for more information on the Waitara Station Upgrade, please contact us on 1800 684 490 or email projects@transport.nsw.gov.au
