

# More Trains, More Services

December 2022

## Albion Park, Spring Hill, Kembla Grange and Croom

---

### More Trains, More Services

As part of the More Trains, More Services program we are delivering platform extension and asset upgrades to a number of stations along the T4 Illawarra Line. This work will simplify and modernise the rail network, ultimately supporting the introduction of the Mariyung fleet.

### We will see you in 2023!

We have completed all planned work for 2022 at Albion Park, Spring Hill, Kembla Grange and Croom. We would like to thank you, our closest neighbours, for your patience and understanding as we carried out this important work. We plan to start work again in these areas from March 2023 and we will notify you in advance before we start.

We look forward to continuing to work with you in 2023!

# We're going digital!

We are committed to integrating sustainable practices into our projects and reducing environmental impacts. By 2023, we plan to phase out hard copy notifications to residents, unless requested. Instead, we will be digitally distributing construction updates to project-specific email lists.

To help us reduce paper waste, please visit [yoursay.transport.nsw.gov.au/mtms](https://yoursay.transport.nsw.gov.au/mtms) to click through to your area and let us know if you would prefer to receive our updates in your inbox instead of your mailbox.

We plan to go entirely digital from January 2023.

If our work is anticipated to directly impact your property and we don't have your contact details, we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.
