

Alfred Street Cycleway Integration Project

Project notification

May 2023

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands for this project and pay respects to Elders past and present.

Transport for NSW is delivering a new section of cycleway on Alfred Street, Parramatta between George Street and Noller Parade.

What is happening?

The new cycleway will provide a continuous north-south cycleway along Alfred Street Parramatta. It will link the proposed cycleway on Alfred Street south of George Street to Alfred Street Bridge, which is currently under construction.

The new cycleway will include:

- a dedicated cycleway between George Street and Noller Parade
- a raised bicycle and pedestrian crossing at Noller Parade to link the new cycleway to Alfred Street Bridge
- relocation of the Kiss and Ride zone to River Road West
- upgrades to street lighting, including new lighting poles and cycle lanterns
- new garden beds and tree plantings
- line marking adjustments.

Please refer to the map overleaf for further information.

If you have any questions, or concerns about the project, please contact the project team.

Email: parramatta@transport.nsw.gov.au

Phone: 1800 979 577

When will work begin?

Construction of the new cycleway link is expected to start in late May or early June and take approximately eight weeks, weather permitting, to complete.

The community will be updated with further project information, including the work schedule, before the start of construction.

What will this mean for you?

Some work will be carried out during standard construction work hours as below:

- Monday to Friday: 7am to 6pm
- Saturday: 8am to 1pm

For the safety of our workers, motorists, pedestrians and cyclists, and to minimise traffic disruptions, most work, however, will be carried out at night from 8pm to 5am, Sunday to Thursday, for up to five nights per week. We will not work on Friday or Saturday nights. No work will be carried out on public holidays.

During construction there may be temporary traffic, lighting, noise and access impacts. Further information on construction impacts will be provided before the start of construction.

Managing our impacts

We understand construction activities may cause disruption. We try to lessen the impacts by:

- turning off equipment and vehicles when not in use
- locating equipment as far away from residents and businesses as possible
- using noise blankets when completing noisy work
- completing noisy work before midnight.

Access to properties will be maintained at all times.

Other projects in the area

This project supports other active transport projects being developed, or constructed in the area, to improve pedestrian and cyclist connectivity in Parramatta.

For further information, please view the map and scan the QR code overleaf.
