Arncliffe Station Canopy Extension

Community notification – November 2022

Upcoming work

In November, the site compound will be reopened in preparation for the resurfacing asphalt work to be completed at the southern end of platforms three and four.

Weekend work

This work will take place from **6am to 6pm on Saturday, 19 November** during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables our project team to safely complete essential activities. Signage will be in place, directing pedestrians to the station concourse to access alternative transport.

This work will include:

- resurfacing sections of asphalt
- some electrical work
- minor roofing works

Tools and equipment to be used include a wet saw, jackhammers, tip truck, and hand tools. All noisy work will be completed during standard hours. There will be workers on-site outside of these hours as they will be preparing and clearing the site. This will not generate any excessive noise.

All work is dependent on weather and site conditions and is subject to change.

Will the commuter car park be affected?

The commuter car park will not be affected during this work.

How do we consider the community?

The project team understands construction activities may cause some disruption for the community and we will seek to minimise impacts as much as possible.
