

# More Trains, More Services

## Bellambi Platform Extension Project

### What's the latest news?

During February, we will begin to prepare the station for a platform extension in the coming months.

This month, construction activities will include:

- completing overhead wiring work
- delivery and transportation of materials
- excavation and drainage work.

We will be excavating more than 50 metres of spoil that will be backfilled with supportive materials to enable utilities to sit safely beneath the platform. This excavation and backfill will provide the foundation for the platform extension.

### What you need to know about construction hours

Standard construction hours on this project are 7am to 6pm, Monday to Friday, weekends and public holidays.

From **6am Saturday 20 until midnight Sunday 21 February**, we will be working during a scheduled Sydney Trains track work period, while no passenger services are running.

Scheduling our night work to coincide with Sydney Trains' track work periods improves the safety of our construction team and minimises disruption to customers. There will be some mid-week work in the lead up to this weekend during standard hours including deliveries of required material.

*For up to date information about services during these times please visit [transportnsw.info](http://transportnsw.info) or call 131 500.*

## Changes to car parking

To enable construction activities to be undertaken safely, we will require temporary use of 6 commuter car spaces between

**8pm Thursday 18 and 6am Monday 22 February.**

Bollards will be installed to reserve these spaces and signage will be in place to advise motorists in advance about these temporary changes.

## Minimising impacts

We understand construction activities may cause disruption for the community and every effort will be made to minimise impacts where possible such as

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts to the surrounding community
- locating equipment as far away from residents and businesses as possible
- stopping work at regular intervals to allow for respite periods
- directing lighting away from residents
- installing noise barriers to shield residents from high impact noise activities.

## How are we keeping out sites safe?

In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and all necessary hygiene practices will be observed.

## Would you prefer digital updates?

We are always exploring ways to connect with the communities where we work while minimising impacts on the environment. To help us reduce paper waste, please visit the project webpage [yoursay.transport.nsw.gov.au/mtms-bellambi](https://yoursay.transport.nsw.gov.au/mtms-bellambi) and complete our survey at the bottom of the page to let us know if you would prefer receive our updates to your inbox instead of your mailbox.

## About More Trains, More Services

Over the next ten years the More Trains, More Services program will simplify and modernise the rail network so that customers can expect more frequent train services, with less wait times, less crowding and more seats on a simpler, more reliable network.
