

Bellambi Station Upgrade is complete

Community notification

September 2023

Transport for NSW acknowledges the Wodi Wodi people of the Dharawal Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The NSW Government has upgraded accessibility at Bellambi Station. This upgrade was delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Completed work

We are pleased to announce the accessibility upgrade at Bellambi Station is complete and open to the public.

As well as improving safety and access, we are honoured to have consulted with Coomaditchie United Aboriginal Corporation and premier artists, Lorraine Brown and Narelle Thomas, to include beautiful architectural designs that weave Aboriginal narratives and themes throughout the precinct to provide an enriching experience for commuters. These include:

- stingray features across the new station building façade. The stingray is significant to the local Wodi Wodi and Dharawal people.
- perforated metal screens along the access ramp depicting the ray and wobbegong shark, which is native to Bellambi Point. Bellambi Point is deeply significant to the community, as it is recognised as an official Aboriginal Place.

- a new station entry ramp
- two new accessible parking spaces
- a formal kiss and ride zone
- a new bike shelter and hoops
- new station building including accessible amenities
- compliant platform widths and access paths with the demolition of the old station building
- upgraded lighting to increase security
- platform resurfacing and regraded footpaths

What we delivered

The new and improved facilities now include:

The new station building at Bellambi.

Thank you

Thank you to the Traditional Custodians, the Dharawal and Wodi Wodi people, station staff, customers, local residents, businesses and our delivery contractors for your cooperation and patience.

We hope everyone, especially customers with a disability, limited mobility, carers/parents with prams and those travelling with luggage, will have an improved experience when catching the train at Bellambi station.

Key project stats

60 subcontractors employed during the project

30,500 hours worked

21 suppliers used from the local and surrounding areas
