

Temporary road closure - West Parade at Trevithick Street from 25 September

Denmark Link Road
September 2023

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Denmark Link Road is a new link road being constructed between Garfield Road West, Riverstone, and the Westminster Street bridge at Schofields.

The new link road aims to address traffic congestion along Garfield Road West around the railway level crossing at Riverstone. It will provide an alternate local connection for light vehicles to cross the Richmond railway line and avoid the Riverstone town centre.

What work are we doing?

As part of the upgrade works to Denmark Link Road, a stormwater channel (box culvert) along West Parade Street will need to be demolished and rebuilt. Work will be carried out during standard construction hours.

We previously notified the community that we would be carrying out this work in August. However, due to programming changes in construction activities, it will now commence **from Monday 25 September**.

When and where we'll be working

The work will be carried out at the intersection of West Parade and Trevithick Street and an adjacent section of West Parade from **7am on 25 September to 6pm on 23 October**.

What will this mean for you?

Equipment used for these activities include heavy and light vehicles, rollers, excavators, graders, bobcats and hand and power tools.

We will lessen any noise disturbance as much as possible by:

- using non-tonal beepers on reversing vehicles
- turning off machinery when not in use

Traffic changes

Both lanes on West Parade will be closed to traffic.

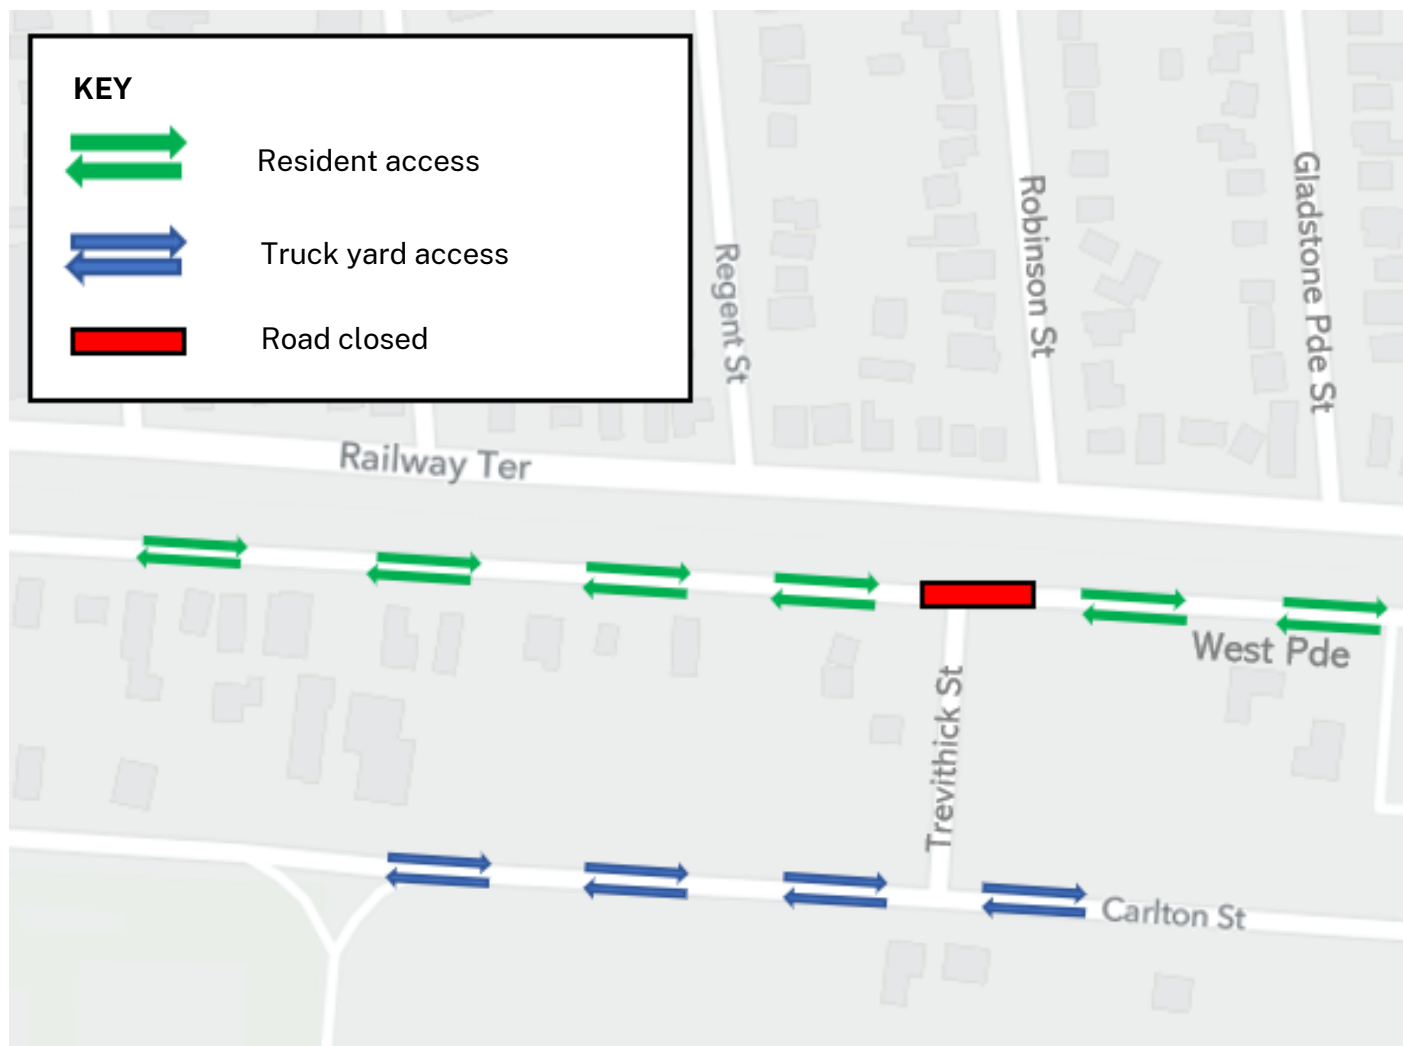

Residents may use Bridge Road to access West Parade. Carlton Street will remain open.

Access to residential properties and businesses will always be maintained.

Motorists are advised to follow signs and traffic controllers' directions.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.
