

Doonside Station Upgrade Community Update

Transport Access Program

September 2023

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What work are we doing in September?

Work includes:

- Civil, concrete, steel, and glazing work to construct the new lifts, landings and canopies
- Refurbishment of footbridge
- Platform regrading
- Installation of canopy steel columns and roof structural steel
- Landscaping and upgrading the footpaths around the station
- Installing electrical and communication services
- Fit out of lifts

When and where we'll be working

In September, work at the station will continue **Monday to Friday from 7am until 6pm and from 7.30am until 5.30pm on Saturdays.**

Some activities are required to be carried out outside of our standard work hours during a scheduled Sydney Trains trackwork weekend as follows:

2am Saturday 2 September until 10pm Sunday 3 September

What will this mean for you?

You may notice:

- At times there will be periods of high noise
- From **7am Tuesday 29 August**, we will be setting up a work area at the laydown area on Rosenthal Street. It will be operational until **6pm Friday 8 September**
- From **2am Saturday 2 September to 10pm Sunday 3 September**, the footbridge over the station will be closed to allow for work to be carried out safely. A shuttle bus will be provided to ferry passengers between Hill End Road and School Parade
- From **3am Saturday 2 September until 10pm Sunday 3 September**, a temporary lane closure on Cross Street between Coghlan Crescent and Hill End Road will be in place
- Temporary parking removal: up to 23 car spaces on School Parade (next to the bus stop) will be required to allow for work to be carried out safely
- Temporary lane closure: access to the station via Eastwood Lane (from Illoura Place) will be closed from **Friday 1 September – Sunday 3 September** and from **mid to late September** to allow for work to be carried out safely. Access will be maintained via Doonside Road
- Footpath closure: the footpath on Cross Street adjacent to the station entrance, will be closed at times to allow for civil works. Traffic control will be in place to guide pedestrians around the work area

- Increase in construction traffic: construction vehicles will access the rail corridor via the access gate on School Parade. At times, temporary parking removal will be required to provide access
- Laydown areas: these secured areas on Coghlan Crescent and Rosenthal Street are required to store materials and support work outside the rail corridor

Changes to scheduled works

Work schedules are subject to change due to permits, weather, and site conditions. Further

notification will be provided should there be a significant change to the construction program.

Managing our work

We aim to manage our work to limit our effect on the community and the environment. This includes:

- Reducing our noise as much as possible
- Using noise blankets where possible, replacing reversing beepers with clickers
- Using traffic control and signage
- Using directional lighting pointed away from residential properties wherever possible
