

Doonside Station Upgrade Community Update

Transport Access Program

May 2023

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What work are we doing in May?

Work includes:

- Civil, concrete, steel and glazing work to construct the new lifts and canopies
- Refurbishment of footbridge
- Installation of platform canopy steel columns
- Platform asphalt resurfacing
- Installation of new high voltage poles and associated overhead wiring
- Installation of precast lift structure
- Excavating and trenching on Cross Street, and School Parade
- Landscaping and upgrading the footpaths and roads around the station
- **Tree trimming and removal**
- Installing electrical and communication services
- Upgrading and cutover of station services.

When and where we'll be working

In May, work at the station will continue **Monday to Friday from 7am until 6pm**, and **from 8am until 1pm on Saturdays**.

Some activities are required to be carried out outside of our standard work hours. These activities have been planned during a scheduled Sydney Trains trackwork weekend as follows:

- **8pm Friday 26 May** to 12am Monday 29 May

We are also planning to work three nights in the month of May to carry out electrical work within

the station precinct. This work is minimal and is not a high noise activity.

What will this mean for you?

You may notice:

- At times there will be periods of high noise
- **From 8pm Friday 26 May** to 12am Monday 29 May, the footbridge over the station will be closed to facilitate required works safely. A shuttle bus will be provided to ferry passengers between Hill End Road and School Parade.
- From Friday 26 until Sunday 28 May, there will be a temporary road closure of Cross Street and Doonside Crescent between Coghlan Crescent and Graham Street to install new high voltage poles. Please refer to traffic control and message boards for details on detours.
- Temporary parking removal: at times, up to eight car spaces at the access gate (please see the map) on School Parade will be required to facilitate vehicle access.
- Temporary lane closure: throughout May, access to the station via Eastwood Land (from Illoura Place) will be restricted at times to allow for paving and landscaping. Access will be maintained via Doonside Road.
- Occasional footpath closure: the footpath on Cross Street adjacent to the station entrance, will be restricted at times to allow for excavating and trenching. Traffic control will

be in place to guide pedestrians around the work area.

- Increase in construction traffic: construction vehicles will access the rail corridor via the access gate on School Parade. At times, temporary parking removal will be required to provide access.
- Laydown areas: these secured areas on Coghlan Crescent and Rosenthal Street are required to store materials and support work outside the rail corridor.

Changes to scheduled works

Work schedules are subject to change due to

permits, weather, and site conditions. Further notification will be provided should there be a significant change to the construction program.

Managing our effects

We aim to manage our work to avoid effects to the community and the environment. This includes:

- Reducing our noise as much as possible
- The use of noise blankets where possible, replacing reversing beepers with clickers
- Traffic control and signage will be in place
- Directional lighting pointed away from residential properties wherever possible.
