

# Doonside Station Upgrade

18 March 2023

## Out-of-hours work Saturday 25 March

We will be working from **7am until 6pm on Saturday 25 March** to install the formwork of Lift 4. The formwork of a lift is the temporary structure that is used to hold concrete in place while it sets. It is the framework that provides support and shape to the concrete until it is strong enough to support itself.

We understand that out-of-hours work may be noisy at times and will do everything we can to lessen any disturbance. Equipment used to carry out the work will include hand and electric tools.

Please see the map of our work area on the other side of this notice.

Transport for NSW acknowledges the Dharug people as the traditional owners and custodians of this land and pays respect to Elders past and present.
