

# Dubbo Station Upgrade

## Transport Access Program | Community Update

November 2023

Transport for NSW acknowledges the Wiradjuri people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is improving accessibility at Dubbo Station.

This upgrade is being delivered as part of the Transport Access Program, which aims to provide station precincts that are accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

### What work are we doing?

Construction on Dubbo Station is progressing well. Work is scheduled to be completed in early 2024. Activities include:

- Car park work (resurfacing and line marking)
- Installing new paving and concrete pavements
- Replacing external lighting and installing new light poles
- In-ground trenching for services
- Platform Works (Grinding and TGSi installation)
- Upgrading the ticket office

### When we'll be working

Standard construction hours are from **7am to 6pm Monday to Friday and 8am to 1pm Saturdays**, excluding public holidays.

We will notify nearby residents and businesses in advance if we need to work outside these times.

### Temporary closure of public car park

Parking at the station will be temporarily closed from **Wednesday 1 November until late December 2023**.

This closure will allow for the construction and upgrade of the current car park within the station precinct. In the interim, commuters are advised to park in Darling Street and walk to the station.

Access for all pedestrians will be via footpaths to the bus parking area, and then beside the current car park, with direct access to the station.

Please find map overleaf.

### Changes to bus services

All bus services, which previously operated from inside the station, will operate from Talbragar Street from **5 November until 23 December 2023**.

### What will this mean for you?

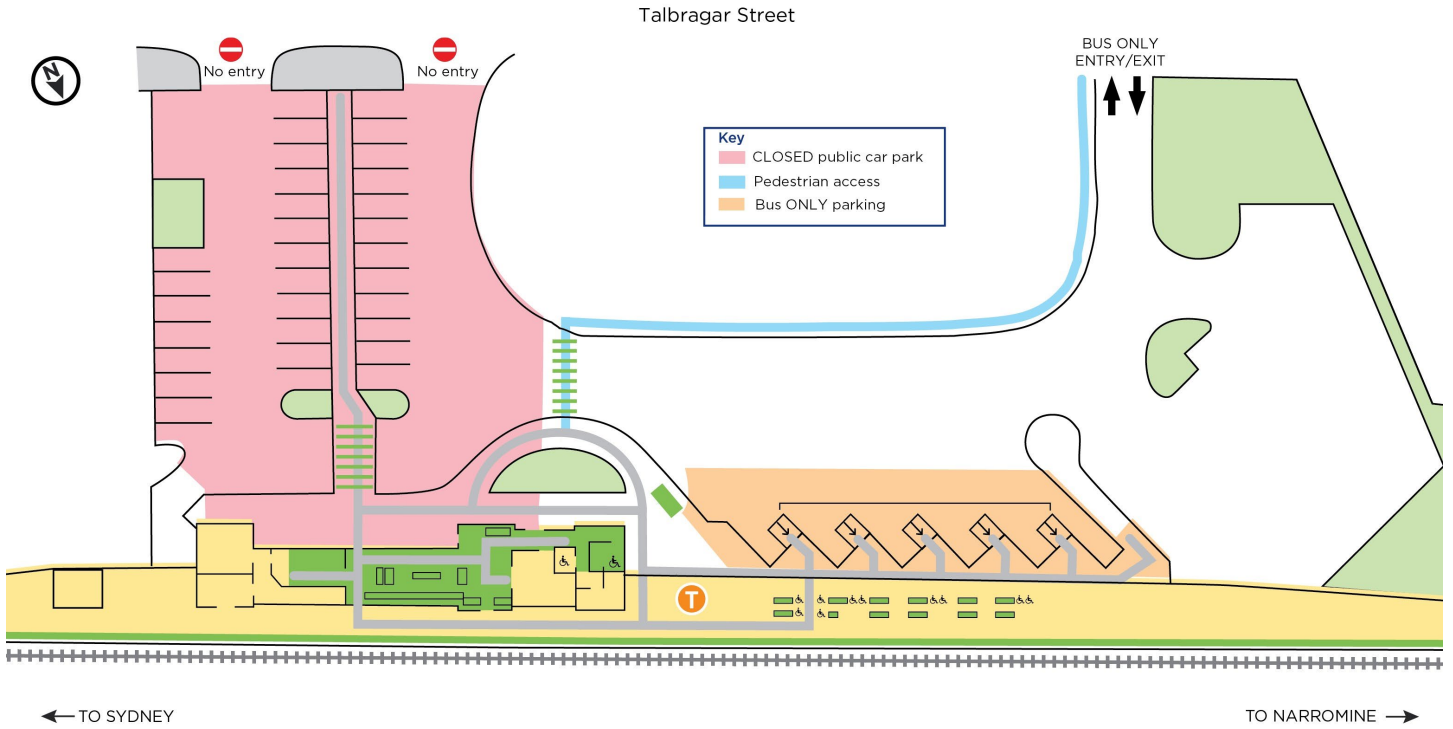

You may notice:

- Traffic changes in and out of the station
- Workers and vehicles
- Temporary loss of parking
- Changes to public car park spaces
- Noise from machinery and equipment.

Our work may be noisy at times. Where possible measures will be implemented to reduce noise including turning off equipment when not in use.
