

# Commuter Car Park Program

## Edmondson Park

### Community Update

May 2023

Transport for NSW acknowledges the Traditional Custodians of the land and pays respects to Elders past and present.

Construction is underway on the Edmondson Park North Commuter Car Park, which will provide approximately 900 new parking spaces.

This will result in a net increase of over 700 additional parking spaces for transport customers when the existing car park to the north of the station is closed to the public.

#### What work are we doing?

The following activities are planned for May:

- concrete pours for the roof top level
- work to modify the access road to the new commuter car park
- work on internal fit out including crash barriers and block walls
- installation of structural steel and façade panels

#### When and where we'll be working

We'll be working within the site compound off Soldiers Parade, Edmondson Park.

Standard work hours are **7am to 6pm, Monday to Friday and 8am to 1pm, Saturday.**

During May, approximately four major concrete pours are planned to occur for the car park rooftop level. Concrete pours will be undertaken during standard hours, however finishing work may need to extend past this time due to the size of the concrete slabs.

#### What will this mean for you?

You may notice:

- workers and vehicles
- traffic controllers and signage along Soldiers Parade
- Noise from machinery and equipment, including excavators, rollers, road saws, graders, tipping trucks, concrete mixers, concrete pump trucks, service vehicles, various delivery vehicles, mobile cranes, tower cranes, forklifts, generators and hand tools

#### Managing our impacts

Our site has been designed to minimise impact to the community and environment. This includes:

- reducing our noise as much as possible
- targeted lighting to minimise light spill
- traffic control to help manage construction traffic entering and leaving our site
- fencing for safety and security
