

Epping Bridge Project Investigation Work

July 2023

Australian Government

Transport for NSW acknowledges the Wallumedegal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and we pay our respect to Elders, past and present.

The Australian and NSW governments are jointly providing \$220 million in funding to replace Epping Bridge to ease congestion, reduce travel times and improve safety for road users.

The upgrade will complement the Epping Town Centre road and intersection upgrades completed by Transport for NSW in 2018, to improve and alleviate traffic congestion in the area.

In April 2023, Transport for NSW awarded Mott MacDonald Australia the contract to develop the concept design, prepare the Review of Environmental Factors, manage early investigation work and provide technical advice for the project.

As part of early planning, investigation works will be undertaken in the road and rail corridors in the coming months.

What is happening in August?

Between **5 August** and **6 August 2023** we will carry out investigation works around Epping Station. This includes work within the rail corridor, and along High Street, Bridge Street, Pembroke Road, Blaxland Road and Beecroft Road.

On **Saturday 5 August** our work hours will be between **7am and 4:30pm** and on **Sunday 6 August**, between **8am and 4pm**, weather permitting.

What work are we doing?

Our work will involve carrying out investigation activities, including:

- establishing a temporary work site
- locating existing underground services
- using machinery to cut and dig into the rail embankment

- works to restore the area when we have completed all investigation activities.

What will this mean for you?

Heavy machinery will operate within the work area and while we carry out our works.

You may notice:

- workers and vehicles
- temporary footpath closures, with pedestrian detours
- noise from machinery and equipment such as sucker trucks.

Temporary changes on High Street, Epping

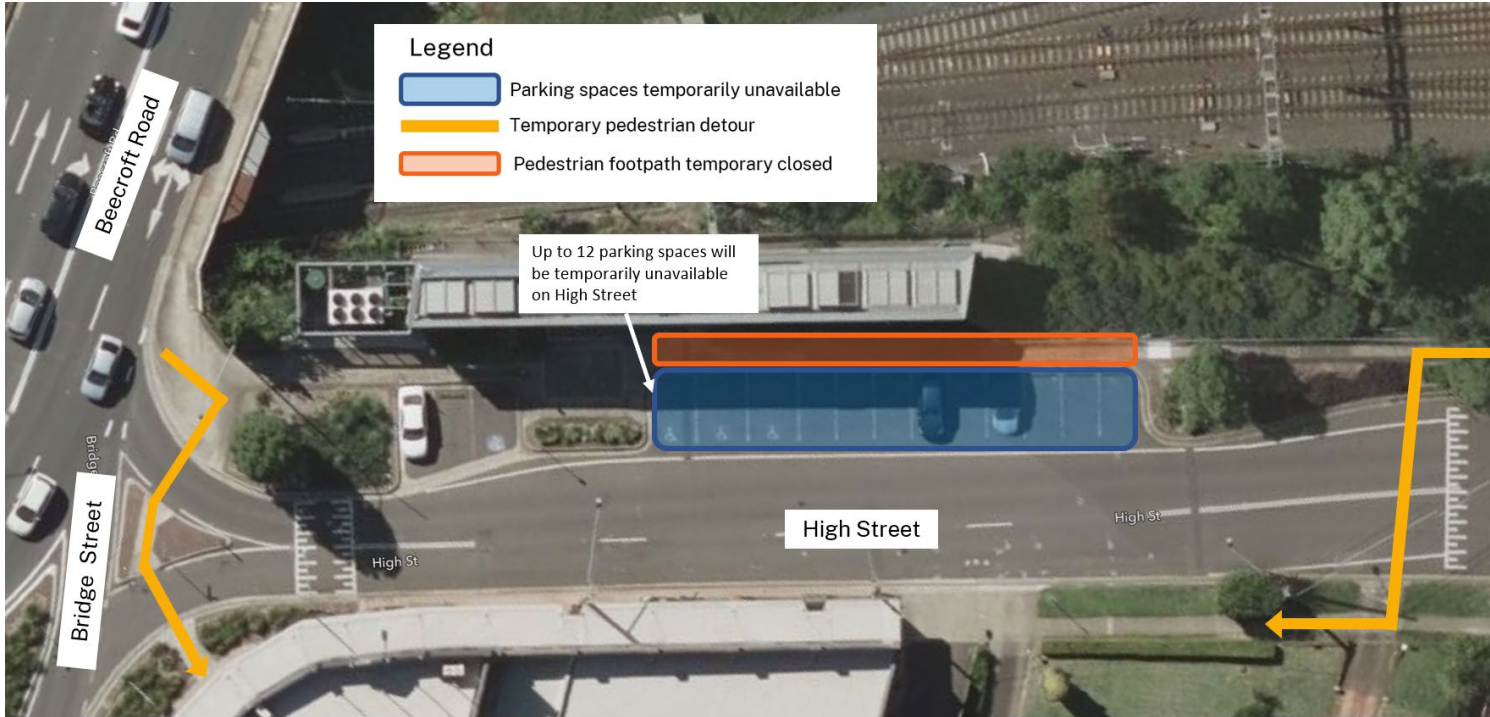

Up to **12 parking spaces** will be temporarily unavailable on High Street while we complete the works. Pedestrian detours will be in place. Please refer to the map overleaf for further information.

Managing noise disturbance

Some of the work may be noisy, however we will make every effort to minimise noise by:

- using non-tonal reversing and movement alarms on our vehicles
- using quieter equipment where possible
- turning off equipment and vehicles when not in use
- locating equipment as far away from residents and businesses as possible
- using noise blankets where possible
- using high visibility protective equipment and signage to help ensure the safety of the public
- limiting the use of high noise generating equipment and out hours of noisy work, where possible.

Location of temporary parking impacts and pedestrian detour

More information

If you have questions, or concerns, about the work or would like more information about the project please call **1800 979 577** (during business hours).

If you would like to receive project updates direct to your email, please email parramatta@transport.nsw.gov.au and we will add you to our mailing list.

Did you know?

Epping Station was first opened in 1896 and was initially named 'Field of Mars'. You can see an early picture of the station adjacent.
