

Fixing Local Roads

October 2023
transport.nsw.gov.au

LGA	Project Name	Project description	Funding amount
Ballina Shire Council	Eltham Road - Maintenance	The section of road will be selectively patched out with deeper asphalt patching and will be resealed.	\$80,443
Ballina Shire Council	South Ballina Beach Road - Maintenance	South Ballina Beach Road, South Ballina will be selectively patched out with deeper asphalt patching and will be resealed.	\$66,391
Ballina Shire Council	Southern Cross Drive - Maintenance	Southern Cross Drive, Ballina will be selectively patched out with deeper asphalt patching and will be resealed.	\$257,163
Ballina Shire Council	The Coast Road - Rehabilitation	The section of road will be selectively patched out with deeper asphalt patching and will be resealed.	\$91,500
Ballina Shire Council	Wardell Road - Rehabilitation	The section of road will be selectively patched out with deeper asphalt patching and will be resealed.	\$289,946
Balranald Shire Council	Marma Box Creek Road - Sealing	This project will seal 14km of Marma Box Creek Road as part of an ongoing project to seal the remaining unsealed 72km. Strengthen the existing unsealed pavement by adding 250mm of imported gravel, widening and sealing to a width of 7m.	\$2,100,000
Balranald Shire Council	Weimby Road and Kyalite Road - Sealing	This project involves sealing approx. 12.4km combined of Weimby Road, Balranald and Kyalite Road, Kyalite. Works will involve strengthening the existing unsealed pavement, widening and sealing to a width of 7m and replacing some of the culverts.	\$1,927,500
Bellingen Shire Council	Deer Vale Road - Rehabilitation	Pre-seal preparation works and re-seal of 11 segments (total re-sealing of 25,000m ²).	\$327,915
Bellingen Shire Council	North Bank Road - Rehabilitation	Pre-seal preparation works and re-seal of 7 sections (total re-sealing of approx. 17,900m ²).	\$275,347

Berrigan Shire Council	Broockmans Road - Sealing	Project to seal approx. 3km of Broockmans Road from the end of the existing seal through to the intersection of Canalla Road and Brookman's Road.	\$988,050
Bland Shire Council	Kikiora Road - Rehabilitation	Excavate the surface into the subgrade layer and reconstruct with a final subgrade layer, gravel and the two coat bitumen seal.	\$237,000
Bland Shire Council	Quandialla Road - Rehabilitation	Stage 1 of 2. This project will excavate and reconstruct the road surface with a wet grade, gravel and a two coat bitumen seal.	\$919,000
Bland Shire Council	Quandialla Road - Rehabilitation	Stage 2 of 2. This project will excavate the road down to the subgrade layer and reconstruct the road with a final subgrade layer, gravel and the two coat bitumen seal.	\$462,500
Blayney Shire Council	Carcoar Street - Rehabilitation	This project involves pavement repair and renewal, and modifying the kerb and gutter to provide a consistent width, and improve parking availability for King George Oval.	
Bogan Shire Council	Colane Road - Rehabilitation	This project involves rehabilitating 2.3km of Colane Road.	\$478,354
Bogan Shire Council	Pangee Road - Gravel Resheeting	This project involves gravel sheeting Pangee Road.	\$480,000
Bogan Shire Council	Yarrandale Road - Maintenance	Works to Yarrandale Road will include pothole repair, edge repair, heavy patching, resealing and line marking.	\$863,009
Bourke Shire Council	Coronga Peak Road - Rehabilitation	This project involves rehabilitating Coronga Peak Road.	\$4,600,000
Brewarrina Shire Council	Jobs Gate Rd - Sealing	This is Stage 1 of the project to seal Jobs Gate Road. This project will seal the unsealed section of 37km.	\$5,000,000
Byron Shire Council	Rifle Range Road - Maintenance	This project will involve pavement renewal works to 200m of Rifle Range Road. Drainage upgrade works will also be completed to ensure this road remains accessible during heavy rainfall events.	\$963,112
Byron Shire Council	Various Local Roads - Sealing	This project involves Minyon Falls Road, Seven Mile Beach Road and Grays Lane. The roads will be upgraded by sealing and widening pavements to provide safe passing distances. Grays Lane will be raised with the addition of box culverts and re-sealed.	\$1,317,029

Cabonne Council	Baldry Road - Sealing	This project will seal 11km of existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$1,023,256
Cabonne Council	Belgravia Road - Sealing	This project will seal 3.7km of existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$280,416
Cabonne Council	Caves Creek Road - Sealing	This project will seal 0.9km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$33,672
Cabonne Council	Frewin Road - Sealing	This project will seal 1.3km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$96,480
Cabonne Council	Old Canobolas Road - Sealing	This project will seal 3.43km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$259,308
Cabonne Council	Paling Yards Loop Road - Sealing	This project will seal 10.6km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$760,557
Cabonne Council	Rosamel Lane Road - Sealing	This project will seal 0.51km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$48,960
Cabonne Council	Rutherford Road - Sealing	This project will seal 4.2km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$231,288
Cabonne Council	Tantallon Road - Sealing	This project will seal 4.8km of an existing gravel road. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$344,160
Cabonne Council	Taylor's Road - Sealing	This project will seal 1.7km of Taylor's Road to improve the safety of road users. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$115,378

Cabonne Council	Yuranigh Road - Sealing	This project will seal 2.5km of Yuranigh Road to improve the safety of road users. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$413,364
Cabonne Council	Waldegrave Road - Sealing	This project will seal 4.9km of Waldegrave Road to improve the safety of road users. Works include grading and stabilisation of existing gravel road, redefining drains, vegetation removal and sealing.	\$152,580
Carrathool Shire Council	Carrathool Road - Rehabilitation	Widening of turning circles at Springs Road & Cowper St T-intersection; Cowper St & Kidman Way intersection, Cowper & Milton St bend and Milton & Oxley Avenue T-intersection. Culvert replacement and overtaking and turning lane improvements at the three intersections.	\$5,000,000
Central Coast Council	Cornwall Avenue - Rehabilitation	The rehabilitation of the entire length of Cornwall Avenue, Gorokan from Wallarah Road to the cul-de-sac will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$259,500
Central Coast Council	Donaldson Street - Rehabilitation	The rehabilitation of Donaldson Street, Wyong from Lucca Road to Number 11 will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$228,000
Central Coast Council	Gorokan Drive - Rehabilitation	The rehabilitation of Gorokan Drive, Lake Haven from Durham Road to Goobarabah Avenue will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$783,750
Central Coast Council	Gregory Street - Rehabilitation	The rehabilitation the entire length of Gregory Street, Berkeley Vale (excluding the roundabout) will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$329,250
Central Coast Council	Hillview Street - Rehabilitation	The rehabilitation of Hillview Street, Woy Woy from Miami Avenue to Railway Street will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$81,000
Central Coast Council	Lakeview Avenue - Rehabilitation	The rehabilitation of the entire length of Lakeview Avenue, Gorokan will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$212,250

Central Coast Council	The Scenic Road - Rehabilitation	The rehabilitation of The Scenic Road, Kincumber from House Number 797 to Patanga Street will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$255,750
Central Coast Council	Wattle Tree Road - Rehabilitation	The rehabilitation of Wattle Tree Road, Holgate from House Number 57 to House Number 181 will include in-situ stabilisation of the road pavement and resurfacing to increase structural capacity and restore consistent road surface.	\$421,500
Cessnock City Council	Cessnock Road - Rehabilitation	The existing pavement of Cessnock Road, Weston will be stabilised and resurfaced from Station Street towards First Street (0.9km).	\$757,500
Cessnock City Council	Mitchell Avenue - Rehabilitation	The existing pavement in Mitchell Avenue, Kurri Kurri will be stabilised and resurfaced from Government Road to Northcote Street (1.5km).	\$1,177,500
Cessnock City Council	Old Maitland Road - Sealing	The unsealed sections of pavement at the northern end of Old Maitland Road, Sawyers Gully will be stabilised and resurfaced from the end of the existing sealed section, through the section commonly referred to as the 21 Bends, heading south from Sawyers Gully Road (3km).	\$1,836,000
Clarence Valley Council	Coledale Road North - Rehabilitation	This project will involve a variety of pavement treatments from full width pavement stabilisation/primer sealing, heavy patching/pavement repairs, followed up with a full reseal and pavement marking where installed.	\$3,455,878
Clarence Valley Council	Rogan Bridge Road - Rehabilitation	This project involves three separate full width pavement stabilisation and primer sealing treatments, followed up with a full reseal and pavement marking where installed.	\$1,330,118
Cobar Shire Council	Pulpulla Road - Sealing	29km of Pulpulla Road will be sealed from the Barrier Highway to the entrance into Mt Grenfell Reserve. This includes the construction of 17 causeways and 4 culverts.	\$5,000,000
Coffs Harbour City Council	Eastern Dorrigo Way - Sealing	This project will extend the seal of Eastern Dorrigo Way in two sections. Section 1 is 1.2km in length and starts 500m south-west of the intersection with Lower Bobo Road. Section 2 is 1.2km in length and starts at the intersection with Seccombes Road.	\$151,498

Coolamon Shire Council	Bygoo Road - Rehabilitation	This project involves the rehabilitation of a 4.87km section of Bygoo Road, from Keogh Avenue to Stewart Lane. These works will allow for heavy vehicle access.	\$554,951
Coolamon Shire Council	Carlisle Park Road - Maintenance	Works to include bitumen maintenance works and application of 10mm rubber reseat to Carlisle Park Road, from Ardlethan Road to Goddes Lane.	\$66,055
Coolamon Shire Council	Coopers Lane - Sealing	Coopers Lane, from Coolamon Road to Millwood Road, will be upgraded from a gravel road to a 6m wide sealed road.	\$156,195
Coolamon Shire Council	Lyne Street - Rehabilitation	Lyne Street, from Hare Street to Easticks Lane, will be upgraded to accommodate access for heavy vehicles.	\$98,325
Coonamble Shire Council	Carinda Road - Rehabilitation	A continuation of Round 1 project, heavy patching on Carinda Road, culvert repair and stabilisation with overlay and horizontal alignment and floodway treatment	\$612,870
Cootamundra-Gundagai Regional Council	Adjungbilly Road - Rehabilitation	Works include pavement surface shape correction and in-situ stabilisation. The edge will be repaired and the road sealed.	\$408,750
Cootamundra-Gundagai Regional Council	Berthong Road - Rehabilitation	Works will include repairing the edge and the road pavement surface will be rehabilitated to provide an acceptable standard of road surface with improved ride quality.	\$294,431
Cootamundra-Gundagai Regional Council	Cooper Lane - Rehabilitation	The pavement will be rehabilitated to provide an acceptable standard of road surface. Additional works include improvements to current drainage and replacement of damaged kerb.	\$251,160
Cootamundra-Gundagai Regional Council	Edwardstown Road - Rehabilitation	This project involves reshaping the pavement surface and in-situ stabilisation for a length of 2.5km. The edge will be repaired and the road sealed.	\$281,250
Cootamundra-Gundagai Regional Council	Kilrush Road - Rehabilitation	Works include repairing the edge and road pavement surface to provide an acceptable standard of road surface.	\$278,361
Cootamundra-Gundagai Regional Council	Mackay Street - Rehabilitation	The pavement will be rehabilitated to provide an acceptable standard of road surface along with improvements to shape and geometry. Project also involves improving the drainage by replacing the kerb, thus also reducing the water which flows across the road during rainfall events.	\$823,550

Cootamundra-Gundagai Regional Council	Millvale Road - Sealing	This project involves rehabilitating the road surface and sealing with bitumen.	\$259,849
Cootamundra-Gundagai Regional Council	Nanangroe Road - Rehabilitation	This project involves pavement surface shape correction and in-situ stabilisation. The edge will be repaired and sealed. Unsealed sections of the road will be trimmed and shaped before applying a primer seal. Reseal will be placed in following year.	\$584,850
Cootamundra-Gundagai Regional Council	Old Gundagai Road - Rehabilitation	Works include repairing the edge and rehabilitating the road pavement surface to provide an acceptable standard of road surface and sealing.	\$276,850
Cootamundra-Gundagai Regional Council	Old Hume Highway - Sealing	Unsealed sections will be trimmed and shaped before applying a primer seal. The 5.6km section will then be sealed.	\$354,900
Cootamundra-Gundagai Regional Council	Rosehill Road - Rehabilitation	Works will include repairing the edge and the road pavement surface will be rehabilitated to provide an acceptable standard of road surface with improved ride quality.	\$259,975
Cowra Shire Council	Various Local Roads - Gravel Resheeting	This project involves technical investigation to determine the optimum materials and proportions to rehabilitate various gravel roads across the LGA. Works involve the carting and spreading of the additional blend material onto the existing pavement surface and the mixing to a depth of 200mm. The road pavement will then be compacted and trimmed.	\$1,297,500
Cowra Shire Council	Various Local Roads - Maintenance	This project involves heavy patching on various sealed roads across the LGA to improve school bus routes and driver safety. Stabilising the failed sections will increase pavement strength and make the road suitable for current and future traffic loads.	\$150,500
Cowra Shire Council	Various Local Roads - Sealing	Works include constructing a pavement depth suitable for the traffic loads on the selected steep section of roads, followed by bitumen sealing.	\$255,750
Dubbo Regional Council	Old Mendooran Road - Sealing	This project involves improving three culverts, installing guardrail at two major culverts, stabilising subbase to 200mm, and adding an additional 350mm of gravel with a two coat bitumen seal.	\$1,160,100
Dubbo Regional Council	Various Local Roads - Rehabilitation	This project involves patching severe cracking and pot holes, shoulder grading and resealing with rubberised bitumen.	\$483,896

Dubbo Regional Council	Various Local Roads - Rehabilitation	This project involves patching severe cracking and pot holes, shoulder grading and resealing with rubberised bitumen.	\$1,024,996
Dubbo Regional Council	Wheelers Lane and Keswick Parkway - Rehabilitation	Works involve the rehabilitation of the roundabout and road surface at Wheelers Lane and Keswick Parkway.	\$966,000
Dungog Shire Council	Paterson River Road - Rehabilitation	This project involves the stabilisation and resealing of 7.2km of road to existing formation widths. The road will be bitumen sealed.	\$1,650,000
Dungog Shire Council	Salisbury Road - Rehabilitation	This project involves the stabilisation and resealing of 6.85km of road to existing formation widths. The road will be bitumen sealed.	\$1,567,500
Dungog Shire Council	Summer Hill Road - Rehabilitation	This project involves the stabilisation and resealing of 5.08km of road to existing formation widths. The road will be bitumen sealed.	\$1,275,000
Edward River Council	Poictiers Street - Rehabilitation	Poictiers Street will be rehabilitated for a distance of 0.927km between Russell Street and Burton Street, including improvements to kerb and guttering as required.	\$1,052,055
Eurobodalla Shire Council	Annett St - Rehabilitation	Provision of pavement renewal, from Princes Highway for a distance of approximately 0.12km. Footpath, kerb and gutter and drainage improvements funded by additional Council contribution.	\$112,500
Eurobodalla Shire Council	Beach Road - Rehabilitation	Works to include the rehabilitation of road surface of Beach Road at the Miller Street intersection.	\$195,000
Eurobodalla Shire Council	Bowerbird Place - Rehabilitation	Works to include the rehabilitation of road surface from Bellbird Drive for the full length of road. Drainage will also be improved.	\$270,000
Eurobodalla Shire Council	George Bass Drive - Rehabilitation	Works to include the rehabilitation of road surface of George Bass Drive.	\$585,000
Eurobodalla Shire Council	Litchfield Crescent - Rehabilitation	Works to include the rehabilitation of road surface adjacent to Nuyen Place for approximately 100m.	\$135,000

Eurobodalla Shire Council	Mulgowrie St - Rehabilitation	Works to include the rehabilitation of road surface between George Bass Drive and Illabunda Drive for approximately 0.265km.	\$295,000
Eurobodalla Shire Council	North Head Drive - Rehabilitation	Works to include the rehabilitation of road surface of North Head Drive, west of Garlandtown Bridge for approximately 1.2km.	\$690,000
Eurobodalla Shire Council	Various Local Roads - Rehabilitation	Project to rehabilitate various local roads across the LGA.	\$675,000
Eurobodalla Shire Council	Wave Street - Rehabilitation	Works to include the rehabilitation of road surface from Monash Avenue for the full length of the road.	\$167,500
Federation Council	Various Local Roads - Maintenance	This project involves replacing all damaged and faded signs on nominated local roads across the LGA. Damaged and missing guideposts will be replaced. Line marking will be renewed.	\$1,209,171
Federation Council	Various Local Roads - Maintenance	Works to include heavy patching utilising in situ stabilisation with either cement, lime or triple blend (depending on the pavement material type). Cracks will be sealed using a hot polymerised rubber.	\$748,350
Federation Council	Various Local Roads - Maintenance	This project involves trimming tree branches to achieve 4.6m height clearance for heavy vehicles, and trim tree branches around intersections and corners to ensure appropriate sight distance is achieved.	\$255,158
Federation Council	Various Local Roads - Maintenance	This project involves repairing shoulders on various local roads across the LGA.	\$147,691
Federation Council	Various Local Roads - Rehabilitation	On various local roads across the LGA, damaged drainage pipes will be dug up and removed, and replaced with a new pipe installed to current standards.	\$106,557
Federation Council	Various Local Roads - Sealing	This project involves sealing multiple roads across the LGA.	\$500,968
Forbes Shire Council	Mount Tallabung Road - Maintenance	Mount Tallabung Road will be heavy patched in multiple locations totalling over 6.8km meters along the 22.68km road.	\$1,033,500
Forbes Shire Council	West Plains Road - Sealing	Continue the seal from the eastern end through to the Edols Road intersection which is also sealed. The proposed new sealed section length is 4.1km which will complete the sealing of this road.	\$1,356,500

Forbes Shire Council	Wirrinya Road - Maintenance	Wirrinya Road will be heavy patched in multiple locations totalling over 5.6km along the 50.63km road. This will stabilise areas experiencing extensive rutting.	\$566,250
Gilgandra Shire Council	Berida Bullagreen Road - Rehabilitation	This project will see 4km of the Berida Bullagreen Road rehabilitated using in-situ stabilisation and resealed with a 6m wide seal.	\$196,200
Glen Innes Severn Council	Furracabad Road - Rehabilitation	This project involves large scale subbase rehabilitation, stabilisation and a new two coat seal.	\$900,000
Goulburn Mulwaree Council	Carrick Road - Resheeting	Works to include gravel re-sheeting the entire 8km length to a gravel thickness of 250mm.	\$677,325
Goulburn Mulwaree Council	Mountain Ash Road - Rehabilitation	This project involves rehabilitating a 12km section of Mountain Ash Road starting at Windellama Road.	\$2,383,665
Greater Hume Shire Council	Cummings Road - Sealing	The start of Grubben Road, off the Olympic Highway heading 6km west towards the township of Walla Walla, will be reconstructed to allow for an 8m sealed formation.	\$1,667,683
Greater Hume Shire Council	Fellow Hills Road - Maintenance	A 4.1km section will be upgraded. Works include widening the road pavement, removing roadside hazards, rectifying failed sections of road pavement, upgrading drainage, new line marking and installation of hazard markers.	\$1,044,849
Griffith City Council	Various Local Roads - Sealing	Sealing Borga Road and Dickie Road (approx. 10.1km). It is proposed to upgrade the road surface from gravel to seal, and improve the drainage to minimise water over road in rainfall events.	\$5,689,000
Gunnedah Shire Council	Kelvin Road - Sealing	This project will seal 11.6km of Kelvin Road between Gunnedah and Rangari Road.	\$4,053,409
Gwydir Shire Council	Horton Road - Sealing	This project involves laying new pavement base and sealing Horton Road, from the village of Upper Horton to the intersection of Killarney Gap Road (16.06km).	\$5,000,000
Hay Shire Council	Various Local Roads - Sealing	This project involves sealing of various roads, including replacing a culvert on a rural road used by large agricultural vehicles.	\$755,190
Hilltops Council	Backcreek Road - Rehabilitation	This project involves heavy patching of pavement defects and table drainage works. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$470,469

Hilltops Council	Berthong Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$65,205
Hilltops Council	Bribbaree Road Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$216,525
Hilltops Council	Colorado Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$335,800
Hilltops Council	Dundas Street - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$384,376
Hilltops Council	Frogmore Road - Rehabilitation	Rehabilitation works to Frogmore Road between Little Plains Road and Ironbark Lane. This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$244,242
Hilltops Council	Grassy Creek Road - Rehabilitation	Rehabilitation works to Grassy Creek Road between Little Plains Road and Maryvale Road. This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$216,365
Hilltops Council	Hintons Road - Sealing	This project involves compacting, trimming and sealing the pavement surface of Hintons Road.	\$101,640
Hilltops Council	Kennys Creek Road - Sealing	This project involves reshaping and sealing 1.2km of Kennys Creek Road north of Rye Park Road.	\$116,156
Hilltops Council	McMahons Reef Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$234,000
Hilltops Council	Moppity Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$441,000

Hilltops Council	Scenic Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$113,999
Hilltops Council	Trafalgar Street - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$164,850
Hilltops Council	Tubbul Road - Rehabilitation	This project involves heavy patching of pavement defects. Works include milling the existing pavement with a stabilising additive, re-shaping, compacting and re-sealing the surface.	\$8,146
Inverell Shire Council	Bukkulla Road - Maintenance	Works include heavy patching and crack sealing, grading of existing shoulder including table drain, removing surface defects, and incorporating new fill material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$349,402
Inverell Shire Council	Coolatai Road - Maintenance	Works include heavy patching and crack sealing, grading of existing shoulder including table drain, removing surface defects, and incorporating new fill material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$208,109
Inverell Shire Council	Copeton Dam Road - Maintenance	Works include heavy patching and crack sealing, grading of existing shoulder including table drain, removing surface defects, and incorporating new fill material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$289,750
Inverell Shire Council	Elsmore Road - Maintenance	Works include heavy patching and crack sealing, grading of existing shoulder including table drain, removing surface defects, and incorporating new fill material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$587,737
Inverell Shire Council	Gragin Road - Maintenance	Grading of existing shoulder to remove surface defects, cut high shoulders, incorporate additional material where required and assist with the removal of water from the edge of the roadway.	\$73,832
Inverell Shire Council	Mount Russell Road - Maintenance	Heavy patching and grading of existing shoulder to remove surface defects, incorporate new material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$551,742

Inverell Shire Council	Old Bundarra Road - Rehabilitation	Works to including milling the existing wearing surface and replace with an asphalt wearing surface of a nominal 40mm thickness. The length of the proposed works is 0.085km with a width of 9m.	\$42,196
Inverell Shire Council	Pindari Dam Road - Maintenance	Heavy patching and grading of existing shoulder to remove surface defects, incorporate new material to ensure a smooth surface and assist with the removal of water from the edge of the roadway.	\$516,960
Junee Shire Council	Various Local Roads - Sealing	Sealing of 40.5km of local roads across the Junee Shire. The total area of sealing to be completed is 310,640m ² .	\$2,594,539
Kempsey Shire Council	South West Rocks Road - Rehabilitation	This project involves repairing a 7.3km section of South West Rocks Road. The road will be resurfaced with 2 x coat bitumen seal, line markings and traffic advisory signs.	\$2,000,000
Kempsey Shire Council	Various Local Roads - Rehabilitation	This project involves heavy patching on a selection of rural roads to repair the failed pavement. 16 rural roads are proposed for heavy patching work, with 42 individual locations identified on these particular roads. A total area of 3,850m ² will be repaired.	\$935,000
Kiama Municipal Council	Riverside Drive - Sealing	This project will seal Riverside Drive between Iluka Crescent to Hutchinson Street, Kiama Downs. 1.25km of the road will be milled and resurfaced with asphaltic concrete to ensure the stabilisation of the road pavement construction.	\$446,600
Kyogle Council	Afterlee Road - Rehabilitation	Rehabilitation of sections of Afterlee Road where major deformations and rough surfaces have occurred. The project will widen shoulders and improve drainage and culverts.	\$2,068,243
Kyogle Council	Lions Road - Rehabilitation	Rehabilitation of sections of Lions Road where major deformations and rough surfaces have occurred. The project will widen shoulders and improve drainage and culverts.	\$539,920
Kyogle Council	Lynches Creek Road - Sealing	Upgrade and seal the unsealed section of Lynches Creek Road with a 7m wide formation and a 6m wide finished surface seal.	\$864,948
Kyogle Council	Tabulam Road - Rehabilitation	Rehabilitation of sections of Tabulam Road where major deformations and rough surfaces have occurred. The project will widen shoulders and improve drainage and culverts.	\$720,248

Lachlan Shire Council	Officers Parade - Rehabilitation	This project involves the installation of storm water pipes and storm water pits, reconstruction of pavement and the construction of pedestrian refuges.	\$600,000
Lachlan Shire Council	Various Local Roads - Rehabilitation	This project involves rehabilitating the road surface and drainage systems of William, Lachlan and Busby Streets, Condobolin. New storm water drainage will be installed and gutters will be realigned to make the streets more suitable for heavy vehicle movements. Lachlan, Busby and Harding Streets will be reconstructed.	\$800,000
Lachlan Shire Council	Various Local Roads - Rehabilitation	Works to various local roads around the Condobolin School precinct. Works will involved re-sealing of newly stabilised pavement, and the installation of line marking and traffic control signage.	\$1,360,000
Lake Macquarie City Council	Racecourse Road - Rehabilitation	A 1.1km section of Racecourse Road from Blair Street will be rehabilitated, including resurfacing with an asphalt overlay.	\$1,408,671
Lake Macquarie City Council	Ruttleys Road, Wyee - Rehabilitation	Ruttleys Road will be rehabilitated and widened to 11m and will have a 1.2m on road cycle lane either side of the road.	\$2,250,600
Leeton Shire Council	Acacia Avenue - Rehabilitation	This project involves width rehabilitation with 200mm of gravel infill and subgrade stabilisation on Acacia Avenue from Oak Street roundabout to Dunn Avenue intersection.	\$121,449
Leeton Shire Council	Calrose Street - Rehabilitation	Rehabilitate Calrose Street with 300mm gravel with subgrade stabilisation.	\$285,785
Leeton Shire Council	Yarran Street - Rehabilitation	Full rehabilitation of Yarran Street from Pine Avenue to Wilga Street with 200mm of gravel infill and subgrade stabilisation.	\$100,944
Lismore City Council	Cowlong Road - Rehabilitation	A 5km section of road pavement in Cowlong Road St will be repaired between Soward Close and McKenzie Road. Treatments will vary along the length depending on the localised pavement condition. They would include pothole repairs, heavy patching or complete pavement rehabilitation as needed, to remove all current defects.	\$1,850,000
Lismore City Council	New Ballina Road - Rehabilitation	A 0.68km section of road pavement on New Ballina Road will be rehabilitated between chainage 250 to the west and the intersection with O'Flynn Street to the east.	\$837,500

Lismore City Council	Tregeagle Road - Rehabilitation	A 0.16km section of Tregeagle Road next to Tregeagle Public School will be rehabilitated. Works include profiling existing pavement and overlaying with a 260mm subbase and a 160mm base course removing all current defects.	\$155,000
Lismore City Council	Uralba Street - Maintenance	A 0.25km section of Uralba Street will be repaired between the intersection with Brewster Street to the west and Diadem Street intersection to the east. Works include repairing potholes, replacing sections of failed pavement and resealing.	\$195,000
Lismore City Council	Wilson Street - Rehabilitation	A 0.36km section of Wilson Street be rehabilitated between the Casino Street intersection to the south and Robert White Bridge to the north. Works include repairing of the travel lanes to existing width and replacement of the road then bitumen sealing.	\$405,000
Lismore City Council	Woodlawn Road - Rehabilitation	A 0.99km section of Woodlawn Road will be rehabilitated between the eastern entrance to Woodlawn College to 330m south west of Savins Road intersection. Works include repairing of the travel lanes to existing width and involves insitu stabilisation of the existing base course.	\$350,000
Lithgow City Council	Dark Corner Road - Rehabilitation	This project involves the reconstruction of the road sub base, base course and surface, and then resealing. Where required, the road shoulder will be reconstructed.	\$949,900
Lithgow City Council	Hartley Vale Road - Rehabilitation	This project involves the reconstruction of the road sub base, base course and surface, and then resealing. Where required, the road shoulder will be reconstructed.	\$413,600
Liverpool Plains Shire Council	Blackville Road - Sealing	Project to seal 3.4km of an unsealed segment of Blackville Road. The works will require shaping of the existing formation and pavement material and adding a base course layer of gravel as an overlay, then bitumen sealing.	\$421,686
Liverpool Plains Shire Council	Callaghans Lane - Sealing	Works to include sealing 2km of an unsealed road and installation of drainage, widening of some culverts, improvement to longitudinal drainage and then enhancement of the existing pavement for bitumen sealing.	\$562,500

Lockhart Shire Council	Wattles Road - Sealing	This project involves sealing 3.2km Wattles Road and 0.8km Tinamba Lane. Realignment of the intersection at the point of contact between the two roads, and the intersections between Wattles Road and Lockhart Kywong Road, and Tinamba Lane and Lockhart Collingullie Road.	\$1,498,500
Maitland City Council	Luskintyre Road - Rehabilitation	This project involves 1km pavement strengthening to Luskintyre Road near Pywells Road. Works include restoring the shoulder, incorporating new gravel, insitu stabilise, 2 coat bitumen seal, drainage improvement, line marking and signage installation.	\$246,343
Maitland City Council	Luskintyre Road - Rehabilitation	This project involves 0.8km pavement strengthening which includes restoring the shoulder, incorporating new gravel, insitu stabilise, 2 coat bitumen seal, drainage improvement, line marking and signage installation.	\$294,631
Maitland City Council	Maitland Vale Road - Rehabilitation	This project involves pavement strengthening, surface drainage repair and improvement, line marking and signage installation.	\$598,460
Maitland City Council	Paterson Road - Rehabilitation	This project involves 0.793km pavement strengthening which includes restoring the shoulder, incorporating new gravel, insitu stabilise, 2 coat bitumen seal, drainage improvement, line marking and signage installation.	\$289,190
Maitland City Council	Phoenix Park Road and Hinton Road - Rehabilitation	This project involves rehabilitating and sealing 1,660m ² of Phoenix Park Road from Morpeth Historical Bridge to Hinton Road. It also involves rehabilitating and sealing 7,073m ² of Hinton Road from No.88 to the Hinton Bridge. Works also involves the rehabilitation of the intersections and bridge approach.	\$189,500
Maitland City Council	Woodberry Road - Rehabilitation	Project to rehabilitate Woodberry Road from Alnwick Road to Raymond Terrace Road. Works involve pavement strengthening, surface drainage repair and improvement, line marking and signage installation.	\$544,685
Maitland City Council	Woodberry Road and Lawson Avenue - Rehabilitation	Pavement strengthening, surface drainage repair and improvement, line marking and signage installation.	\$397,073
MidCoast Council	Cowper Street - Rehabilitation	Cowper Street from Manning River Drive to St Vincent Street will receive pavement rehabilitation works and a renewed asphalt seal as a wearing surface.	\$1,020,797

MidCoast Council	Muldoon Street - Rehabilitation	Muldoon Street from Patricia Avenue to Whitbread Street will receive pavement rehabilitation works and a renewed asphalt seal as a wearing surface.	\$859,921
MidCoast Council	Waitui Road - Sealing	Waitui Road and Hannam Vale Road will be sealed from the existing end of seal to Waitui. Project is approximately 3.1km.	\$3,000,000
Mid-Western Regional Council	Aarons Pass Road - Sealing	Sealing 22.4km of Aarons Road to a width of 6m and re-establishing table drains and clearing shoulders.	\$1,983,500
Mid-Western Regional Council	Various Local Roads - Sealing	This project involves sealing the last of council's Collector Road bus routes. The roads to be sealed are: Coxs Creek Road, Mebul Road and Pyramul Road.	\$3,316,200
Moree Plains Shire Council	Burrington Road - Sealing	Works to include the reconstruction and sealing of Burrington Road.	\$560,588
Moree Plains Shire Council	Terry Hie Hie Road - Sealing	This project involves the reconstruction and sealing of a 5.8km section of Terry Hie Hie Road. This will include three horizontal, three vertical curves and two causeways.	\$1,087,500
Moree Plains Shire Council	Various Local Roads - Rehabilitation	The road approaches for 4 bridges will be graded and reshaped to ensure water runoff sheds back away from the bridges and approaches to reduce erosion of the abutments. Re-construction of road drainage for each approach.	\$135,000
Moree Plains Shire Council	Various Local Roads - Rehabilitation	The road approaches for 5 bridges will be graded and reshaped to ensure water runoff sheds back away from the bridges and approaches to reduce erosion of the abutments. Re-construction of road drainage for each approach.	\$232,500
Moree Plains Shire Council	Various Local Roads - Rehabilitation	This project involves upgrading intersections of Local roads with State highways. The intersections are: Karingal, Limebon and Buckie Roads which all connect with the Newell Highway, and; Morialta Road and Tycannah Street with the Gwydir Highway. The Tycannah Street intersection also requires the removal of the traffic calming blister and re-construction of the kerb and gutter to suit the left turn sweep path of long road trains.	\$690,000
Moree Plains Shire Council	Various Local Roads - Rehabilitation	The road approaches for 4 bridges will be graded and reshaped to ensure water runoff sheds back away from the bridges and approaches to reduce erosion of the abutments. Re-construction of road drainage for each approach.	\$135,000

Moree Plains Shire Council	Watercourse Road - Sealing	Works to include the reconstruction and sealing of Watercourse Road.	\$622,463
Murray River Council	24 Lane - Sealing	24 Lane will be sealed between Tataila Road and Hillside Road.	\$656,850
Murray River Council	Cincotta Lane - Sealing	Cincotta Lane will be sealed from Lawson Drive to Moulamein Road. Kerb & gutter will be installed for drainage purposes.	\$180,000
Murray River Council	Gilmour Road - Sealing	This project involves sealing approx. 5km of Gilmour Road.	\$858,150
Murray River Council	Moama Street - Sealing	Moama Street will be sealed from Blair Street to the entrance of Kooyong Park development.	\$147,000
Murrumbidgee Council	Bolton Street - Rehabilitation	This project involves rehabilitate 0.552km of Bolton Street with a 50mm overlay over the existing pavement, mixed, and stabilised with lime.	\$150,000
Muswellbrook Shire Council	Yarrawa Road - Sealing	This project involves the re-alignment and sealing of Yarrawa Road.	\$5,000,000
Nambucca Valley Council	Boultans Crossing Road - Sealing	Project will increase pavement depth and seal 1.6km of Boultans Crossing Road. Works will also involve improving alignment and widening in some sections.	\$316,800
Nambucca Valley Council	Creek Street - Sealing	Works include sealing a total of 0.09km of unsealed road. A gravel overlay will be applied and be spray sealed.	\$18,750
Nambucca Valley Council	Old Coast Road - Sealing	This project involves sealing 1.3km of currently unsealed sections of Old Coast Road.	\$257,400
Nambucca Valley Council	Tilly Willy Street - Rehabilitation	Tilly Willy Street and intersections on both Taylors Arm Road and McKay Street will be stabilised, overlaid with gravel and spray sealed. Work will include upgrades of the intersection with Taylors Arm for ongoing public safety. Works will involve 875m of local roads.	\$270,000
Nambucca Valley Council	Upper Warrell Creek Road - Sealing	0.62km of Upper Warrell Creek Road will be rehabilitated and sealed, leading up to Industrial Estate Bridge.	\$77,700

Nambucca Valley Council	Wellington Drive - Rehabilitation	Works involves stabilising the existing pavement and resurfacing with asphalt.	\$157,500
Narrabri Shire Council	Millie Road - Sealing	This project involves upgrading 6.5km of unsealed roads to sealed roads. 0.4km of sealing is required on Waiwera Lane to join the proposed sealed section of Millie Road to the current sealed section of Waiwera Lane.	\$3,245,340
Narrandera Shire Council	Brewarrana Bridge Road Deck - Sealing	Backfill with graded rock around wings and construct a reinforced toe beam to tie the slender piles together to ensure a uniform support. After completion of these repairs, to replace the deck overlay with a new one and then seal the new deck with a bitumen spray.	\$520,000
Narrandera Shire Council	Old Wagga Road - Sealing	Minor preparation works and sealing of 6km of Old Wagga Road.	\$270,000
Narrandera Shire Council	Paintings Bridge Road - Sealing	Minor preparation works and sealing of 8km of Paintings Bridge Road.	\$430,000
Oberon Council	Campbell's River Road - Rehabilitation	This project will rehabilitate 5km of Campbell's River Road to improve the strength, shape and riding comfort of the roadway. Remedial drainage work will be undertaken along the sections being rehabilitated.	\$4,875,310
Orange City Council	Leewood Drive - Rehabilitation	This project involves the reclamation and stabilisation of the existing road pavement materials and overlay with suitable asphalt.	\$562,500
Orange City Council	Lone Pine Avenue and Wakeford Street - Rehabilitation	This project involves in-situ stabilisation of subgrade, reclamation and stabilisation of the existing road pavement materials, overlaying with additional road base and resurfacing with suitable asphalt surface.	\$1,050,000
Orange City Council	Ploughmans Lane - Rehabilitation	This project involves the reclamation and stabilisation of the existing road pavement materials, overlaying with additional road base and resurfacing with suitable bitumen seal. Work will be done on Ploughmans Lane between Escort Way and Cargo Road.	\$300,000
Orange City Council	Prince Street & Anson Street - Rehabilitation	This project involves reclamation and stabilisation of the existing road pavement materials, and resurfacing with suitable asphalt.	\$225,000

Parkes Shire Council	Cookamidgera Road - Sealing	This project involves sealing 1.3km of unsealed road to a width of 9m with a minimum 8m seal, as well as improving safety on substandard bends and crest reconstruction. A concrete causeway will be reconstructed through a high volume waterway mitigating the damage caused by flooding.	\$1,300,000
Parkes Shire Council	East Street - Rehabilitation	This project involves new culvert construction, widening and upgrading to 20m width road pavement, plus 3.5m for pedestrian walkway.	\$2,241,120
Port Macquarie-Hastings Council	Bago Road - Rehabilitation	This project involves rehabilitating Bago Road between Bluewater Close and Timbertops Close. Works will include gravel overlay, construction of road shoulder where practical, stabilisation and sealing.	\$1,110,000
Port Macquarie-Hastings Council	Highfield Circuit - Rehabilitation	This project involves rehabilitating the full length Highfield Circuit, south of Wrights Road.	\$200,000
Port Macquarie-Hastings Council and Kempsey Shire Council	Maria River Road - Sealing	This project involves upgrading 25km section of unsealed road to a sealed road pavement. Works will include improving drainage and horizontal alignment.	\$17,011,000
Port Macquarie-Hastings Council	Pembroke Road - Rehabilitation	This project involves rehabilitating Pembroke Road between Beechwood Road and Stoney Creek Road. Works will include gravel overlay, construction of road shoulder where practical, stabilisation and sealing.	\$2,440,000
Port Macquarie-Hastings Council	Pembroke Road - Rehabilitation	This project involves rehabilitating Pembroke Road between Loggy Creek Bridge and north of Saltwater Creek Bridge. Works will include gravel overlay, construction of road shoulder where practical, stabilisation and sealing.	\$550,000
Port Macquarie-Hastings Council	Toorak Court - Rehabilitation	This project involves resurfacing the full length Toorak Court, south of Lake Road.	\$105,000
Port Stephens Council	Fullerton Cove Road - Rehabilitation	Fullerton Cove Road from No.248 to Coxs Lane requires rehabilitation the existing pavement, importing new materials to correct shape issues and replace failed sections of pavement.	\$480,000
Port Stephens Council	Kula Road - Rehabilitation	To rip and remix the existing road pavement material on Kula Road from No.34 to No.65, replacing failed pavement and strengthening the existing pavement to remove the likelihood of cracking reappearing.	\$600,000

Port Stephens Council	Newline Road - Rehabilitation	This project involves upgrading the pavement along Newline Road from No.1088 to East Seaham Road intersection to improve the overall shape, width and finish to improve safety, ride quality and strength to support future growth and use.	\$550,000
Queanbeyan-Palerang Regional Council	Araluen Road - Rehabilitation	The 1.5km section of Araluen Road starting at Majors Creek Road will be insitu stabilised to repair the failed pavement and to renew the tired bitumen seal. The stabilisation contractors will add 100mm of DGB20 to the pavement before insitu stabilising the pavement.	\$300,000
Richmond Valley Council	Naughtons Gap Road - Maintenance	This project involves multiple heavy patches of the road pavement to improve pavement stability and life, as well as increasing safety; Repairs to rutting and surface deformation; Significant crack sealing and surface resealing to prevent water ingress; Repairs of edge breaks/drop offs.	\$400,000
Singleton Council	Carrowbrook Road - Maintenance	This project involves heavy patching sections of Carrowbrook Road.	\$64,142
Singleton Council	Enterprise Crescent - Rehabilitation	This project involves resealing Enterprise Crescent between Maison Dieu Road and Magpie Street. Works include removing 2m edges along the kerb and gutter and reseal with asphalt.	\$610,000
Singleton Council	Hamiltons Crossing Road - Sealing	This project involves sealing the 2.47km unsealed section of Hamiltons Crossing Road.	\$713,842
Singleton Council	Magpie Street - Rehabilitation	Works include resurfacing the existing surface (4,890m ²) to rectify surface defects.	\$248,233
Snowy Monaro Regional Council	Smiths Road & Tinderry Road - Sealing	This project is part of a series of works to deliver sealing upgrades to over 38km of gravel roads. Works include sealing 100% of Smiths Road and 25% of Tinderry Road.	\$2,300,118
Snowy Monaro Regional Council	Springfield Road - Sealing	This project is part of a series of works to deliver sealing upgrades to over 38km of gravel roads. Works include sealing 75% of Springfield Road.	\$3,868,743
Tamworth Regional Council	Retreat Road - Sealing	The existing 7km stretch of Retreat Road will be sealed for its entirety and Retreat Bridge will be replaced to actively open up the road network to HML B-doubles.	\$3,600,000

Temora Shire Council	Bulk Head Road - Sealing	Bulk Head Road will be sealed between Tewksbury Road and Gardener Street.	\$160,000
Temora Shire Council	Thanowring Road - Rehabilitation	This project involves improving drainage, widening to 6.8m to match other segments of Thanowring Road, and re-sealing.	\$360,000
Temora Shire Council	Various Local Roads - Gravel Resheeting	This project involves drainage maintenance and cleaning of culvert structures, maintenance of existing mitre drains and pavement resheeting.	\$1,025,000
Temora Shire Council	Various Local Roads - Rehabilitation	This project involves the preparation and resealing of 47.2km of sealed roads across the LGA.	\$1,055,000
Tenterfield Shire Council	Tooloom Rd - Rehabilitation	This project will upgrade of 12km of Tooloom Road from Paddy's Flat North to Urbenville to facilitate HML. Works include installation of new two lane concrete bridge over Beaury Creek.	\$3,996,201
Tweed Shire Council	Bartletts Road - Rehabilitation	This project will involve widening the pavement of Bartletts Road to 6m between an unnamed road reserve adjacent to Lot DP514092 through to Saunders Lane.	\$750,000
Upper Hunter Shire Council	Moonan Brook Road - Sealing	This project will seal 5.4km of Moonan Brook Road from the intersection with Hunter Road to the Moonan Brook Camping Ground. Work involves gravel patching and repair of all pavement defects such as potholes, corrugations and scours.	\$4,900,000
Upper Lachlan Shire Council	Collector Road - Sealing	This project will reconstruct and seal Collector Road from chainage 3.64km to 6.64km (Lucks Lane).	\$1,485,900
Uralla Shire Council	Hawthorne Drive - Rehabilitation	This is stage 1 of 2 to repair and rehabilitate Hawthorne Drive. This project involves works to Hawthorne Drive from Rockey River Road to 2km north. Work will involve strengthening the road base, widening to 7m, reshaping and resealing.	\$516,000
Wagga Wagga City Council	Lake Albert Road - Rehabilitation	This is stage 1 of 2 of upgrades to Lake Albert Road. This project will upgrade the section from Warrawong Street to Lord Baden Powell Drive. The project will allow for anticipated increased HV usage into the future.	\$2,045,309
Wagga Wagga City Council	Lake Albert Road - Rehabilitation	This is stage 2 of 2 of upgrades to Lake Albert Road. This project will upgrade the section from Fay Avenue to Stanley Street. The project will allow for anticipated increased HV usage into the future.	\$1,600,793

Walcha Council	Geraldine Road - Sealing	This project will seal Segment 10 of Geraldine Road.	\$180,000
Walcha Council	Glen Morrison Road - Rehabilitation	This project will rehabilitate Glen Morrison Road.	\$270,000
Walcha Council	Kangaroo Flat Road - Sealing	This project will repair and seal Segment 40 of Kangaroo Flat Road.	\$520,000
Walcha Council	Moona Plains Road - Rehabilitation	This project will rehabilitate Segment 80 of Moona Plains Road.	\$680,000
Walgett Shire Council	Montekeila Street - Sealing	This project will replace existing gravel up to 200mm thickness and pulverisation with 1.5% lime, compacting and sealing with two coats (14mm and 10mm).	\$193,500
Warren Shire Council	Ellengerah Road - Rehabilitation	Ellengerah Road Segment 20 will be rehabilitated including re-shaping of the existing formation, stabilising of the newly created formation and reseal.	\$324,150
Warren Shire Council	Nevertire-Bogan Road - Rehabilitation	A segment of Nevertire-Bogan Road will be rehabilitated including re-shaping of the existing formation, stabilising the newly created formation and reseal.	\$445,300
Warren Shire Council	Old Warren Road - Rehabilitation	A segment of Old Warren Road will be rehabilitated including re-shaping of the existing formation, stabilising the newly created formation and reseal.	\$534,300
Warrumbungle Shire Council π	Booloola Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$300,000
Warrumbungle Shire Council	Bugaldie Goorianawa Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$300,000
Warrumbungle Shire Council	Coolah Creek Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$150,000
Warrumbungle Shire Council	Coolah Neilrex Road - Sealing	This project will seal 6km of existing road surface with up to 200mm compacted road base to a width of 6m and improve road drainage.	\$1,275,000
Warrumbungle Shire Council	Lawson Park Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$150,000

Warrumbungle Shire Council	Merrygoen Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$300,000
Warrumbungle Shire Council	Napier Lane - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$300,000
Warrumbungle Shire Council	Neilrex Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$150,000
Warrumbungle Shire Council	Piambra Road - Rehabilitation	This project will overlay existing surface with 100mm compacted road base and bitumen seal the surface.	\$450,000
Weddin Shire Council	Back Piney Range Road - Rehabilitation	This project involves resealing 5.6km of Back Piney Range Road with a 14mm seal.	\$213,410
Weddin Shire Council	Nowlans Road - Gravel Resheeting	This project involves gravel resheeting of 15.6km of Nowlans Road to a thickness of 100mm.	\$504,800
Weddin Shire Council	Pullabooka Road - Rehabilitation	Full rehabilitation of Pullabooka Road from Sandy Creek Road to the Mid Western Hwy - approx. 11km. The road will also be widened from the existing 5.4m seal to a uniform 7m seal, and 6 concrete culverts will be renewed due to structural cracking.	\$3,898,702
Wentworth Shire Council	High Darling Road - Sealing	This project will seal approx. 6km of High Darling Road to the Silver City Highway north turnoff.	\$773,625
Wentworth Shire Council	Mallara Street - Sealing	This project will seal approx. 0.58km of road from Tarcoola Street to the end of Mallara Street.	\$130,387
Wentworth Shire Council	Old Wentworth Road - Sealing	This project will seal approx. 8.5km of Old Wentworth Road from Wentworth to Dareton.	\$1,168,095
Wingecarribee Shire Council	Church Ave and Boardman Road - Rehabilitation	This project will replace two roundabouts and carriageways at located at the on/off ramps of Hume Highway and Church Avenue, Colo Vale; and on Boardman Road at the intersection of Rowland Road and Emily Circuit, East Bowral.	\$513,000
Wingecarribee Shire Council	Old South Road - Rehabilitation	This project will rehabilitate 2.5km of Old South Road from the intersection of Merrigang Street to Range Road. The project involves creating an consistent width to the road, stabilisation, and a two coat seal and line marking.	\$2,850,000

Wingecarribee Shire Council	Throsby Street - Rehabilitation	This project will address issues to a 0.6km section of Throsby Street. The existing width is 12.1m and is to be reduced to 11m to meet Council standards, allowing the correction of driveway levels and the retention of street trees. The pavement will be resealed with 2 coat seal and relined marked.	\$1,000,000
Yass Valley Council	Various Local Roads - Rehabilitation	Rehabilitation of 8km of local roads including strengthening and rectification of pavement, road surface replacement and new line markings.	\$2,395,000
Yass Valley Council	Various Local Roads - Rehabilitation	This project involves resealing 57km (8%) of Council's sealed road network. The resealing works include heavy patching as required, pothole removal, crack sealing and application of a bitumen reseal.	\$3,145,000

Dubbo Regional Council has withdrawn one project approved in this round. The project involved rehabilitation works to Twelve Mile Road.

Project list last updated: October 2023 Please note: although this information is updated regularly, project conditions can change rapidly, and so some details may not reflect more recent project developments.
