

Glenfield to Campbelltown Infrastructure Upgrade

More Trains, More Services

February 2023

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present. We recognise & celebrate the diversity of Aboriginal peoples and their ongoing cultures & connections to the lands and waters of NSW.

The More Trains, More Services program will simplify and modernise the rail network creating high capacity, turn up and go services for many customers. The next stages of the program include integrating Sydney Metro City and Southwest into Sydney's train network.

When and where we'll be working

In February, work will be carried out in the rail corridor between Glenfield and Campbelltown and include:

- design, construction, environment and safety investigative site walks
- identifying existing service and signaling routes.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**.

What will this mean for you?

You may notice:

- workers and vehicles
- vegetation trimming
- installation of boundary fencing, site sheds and power generators
- noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise the impacts where possible, including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts to the surrounding community
- locating equipment as far away from
- directing lighting away from residents

- residents and businesses as possible
- conducting on-site monitoring to ensure compliance with strict environmental conditions relating to noise, vibration and dust management.

We are going digital

We are committed to integrating sustainable practices into our projects and reducing environmental impacts.

In 2023, we will no longer distribute hard copy notifications to residents on this project unless requested.

Please scan the QR code and complete the short survey to let us know how you would like to receive project updates.

If our work is anticipated to directly impact your property and we do not have your contact details, we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.
