

Glenfield to Campbelltown Infrastructure Upgrade

More Trains , More Services

May 2023

Transport for NSW acknowledges the Buttamattagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What work are we doing?

We will be working within and adjacent to the rail corridor to:

- upgrade electrical cables and overhead wiring infrastructure at Glenfield, Glenfield South and Ingleburn substations
- install new infrastructure in the rail corridor to support service enhancements
- modify electrical assets and combined service routes.
- establish rolling site offices to accommodate mid-week activities and future weekend works

When and where we'll be working

In May, work will be carried out in and adjacent to the rail corridor between Glenfield and Campbelltown including:

- design, construction, environment, and safety investigative site walks
- identifying existing service and signalling routes.

Standard construction hours

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

What will this mean for you?

You may notice:

- workers and vehicles
- noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise the impacts where possible, including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts to the surrounding community
- locating equipment as far away from residents and businesses as possible
- directing lighting away from residents
- conducting on-site monitoring to ensure compliance with strict environmental conditions relating to noise, vibration and dust management.

We are going paperless

This is the last paper notification you will receive from us

We are committed to integrating sustainable practices into our projects and reducing environmental impacts. After May 2023, we will no longer be distributing paper notifications to residents unless requested. Instead, we will contact you via email when there is construction work that may impact you.

To register for digital construction updates, please scan the QR code and fill out the form.

If you wish to continue to receive paper notifications, you can request this via the QR code or call us at 1800 684 490 and ask to speak to a member of More Trains, More Services.

If you do not register for updates, you may miss out on important updates and potential inconveniences caused by our construction work.

Thank you for supporting us to create a more sustainable future.
