

Completion of Henry Lawson Drive Upgrade, Georges Hall

Community Update | Completion of works | May 2023

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW has completed upgrades to Henry Lawson Drive (HLD) between Beale Street and just south of Rabaul Road in Georges Hall, improving safety, congestion and travel time for all users.

The final stage of the upgrade is now complete, providing an additional southbound lane and a new pedestrian footpath along Henry Lawson Drive.

This road upgrade was successfully completed as part of the Urban Road Congestion Program to ease congestion, reduce traffic delays, and improve safety and travel times for drivers in Georges Hall and the greater Canterbury Bankstown area.

What did we do?

- An additional southbound lane between Beale Street to south of Rabaul Road
- A new pedestrian footpath on the eastern side between Rabaul Road and Haig Avenue

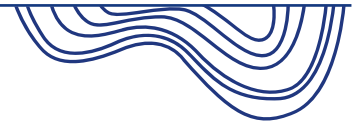

- Banning the right turn from HLD onto Rabaul Road.

Community benefits

Community benefits include:

- Reduced northbound queuing on Henry Lawson Drive at Rabaul Road
- Improved traffic flow in both directions along this section of Henry Lawson Drive
- Improved road safety for all users.

Transport for NSW would like to thank the community for their continued support, patience, and cooperation while we completed this important project over the last two years.
