

Henry Lawson Drive Stage 1A upgrade

April 2023

Transport for NSW is continuing works as part of the Henry Lawson Drive Stage 1A upgrade, between Tower Road, Bankstown Aerodrome and Auld Avenue, Milperra.

What's happening?

The following activities are planned to take place outside of standard working hours during April:

- Removal of the 70kmh line marking on Newbridge Road and Milperra Road. The speed limit will be reduced to 60kmh in this area during construction.
- Potholing and geotechnical investigation works at various locations using general and vacuum excavation methods. Works may involve saw cutting of pavements.
- Compound establishment at the corner of Newbridge Road and Henry Lawson Drive and delivery of materials.
- Vegetation clearing and mulching of vegetation at various locations.

There will be some noise and disruption associated with this work. We will make every effort to minimise impacts to the local community and motorists in the area by keeping general noise to a minimum where possible and directing lights facing away from residential areas wherever possible.

Residents most affected by the works will be directly consulted by the Project team to discuss the works in further detail.

Working hours

Our standard working hours will be between **7am and 6pm** from Monday to Friday and between **8am to 1pm** on Saturday. We will not work on Sundays and during public holidays.

Some of our work will need to be carried out at night to minimise traffic disruptions and reduce safety risks to workers and road users. In some instances, we will work up to five nights a week, weather permitting and excluding public holidays. Our night-time work will be from Sunday to Thursday between **8pm to 5am** the next day.

Traffic and pedestrian path changes during our work

There will be temporary lane closures along Henry Lawson Drive and Newbridge Road. Traffic control will be in place to ensure the work zone is safe for road workers, motorists and pedestrians. Please follow the direction of traffic controllers and follow traffic signs.

You can also call 132 701 or visit livetraffic.com or download the Live Traffic NSW app, for traffic updates.
