

# Homebush to Strathfield Signalling Upgrade

## More Trains, More Services

January and February 2024

Transport for NSW acknowledges the Wangal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program will simplify and modernise the rail network creating high capacity, turn up and go services for many customers.

This project will upgrade the infrastructure inside the rail corridor between Homebush and Strathfield to improve train movements through the stations.

### What work are we doing?

In January and February 2024, work inside the rail corridor will involve:

- upgrading the overhead wiring and related infrastructure that powers the trains. This involves working on overhead wiring structures to replace the current wiring with a more efficient electrical system
- excavation work to prepare for the installation of a new concrete foundation
- work on electrical infrastructure such as metal cable covers.

You may also see our teams on Parnell Street, The Crescent and Columbia Lane.

### When we'll be working

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**.

For safety reasons, some work will take place outside of standard construction hours from **10pm Friday 12 January to 2am Monday 15 January 2024**. This work will happen during a scheduled Sydney Trains trackwork period when no trains will be running.

### Temporary parking changes

The following parking changes will be in place from **9pm Thursday 11 January to 6am Monday 15 January 2024** to facilitate construction activities:

- The **carpark on Parnell Street** (east of The Boulevarde) will be closed
- We will temporarily remove up to 25 parking spaces on **The Crescent** near the intersection with Homebush Road.

We apologise in advance for any inconvenience this may cause.

Sydney Trains and other contractors may also remove parking along The Crescent and Parnell Street.

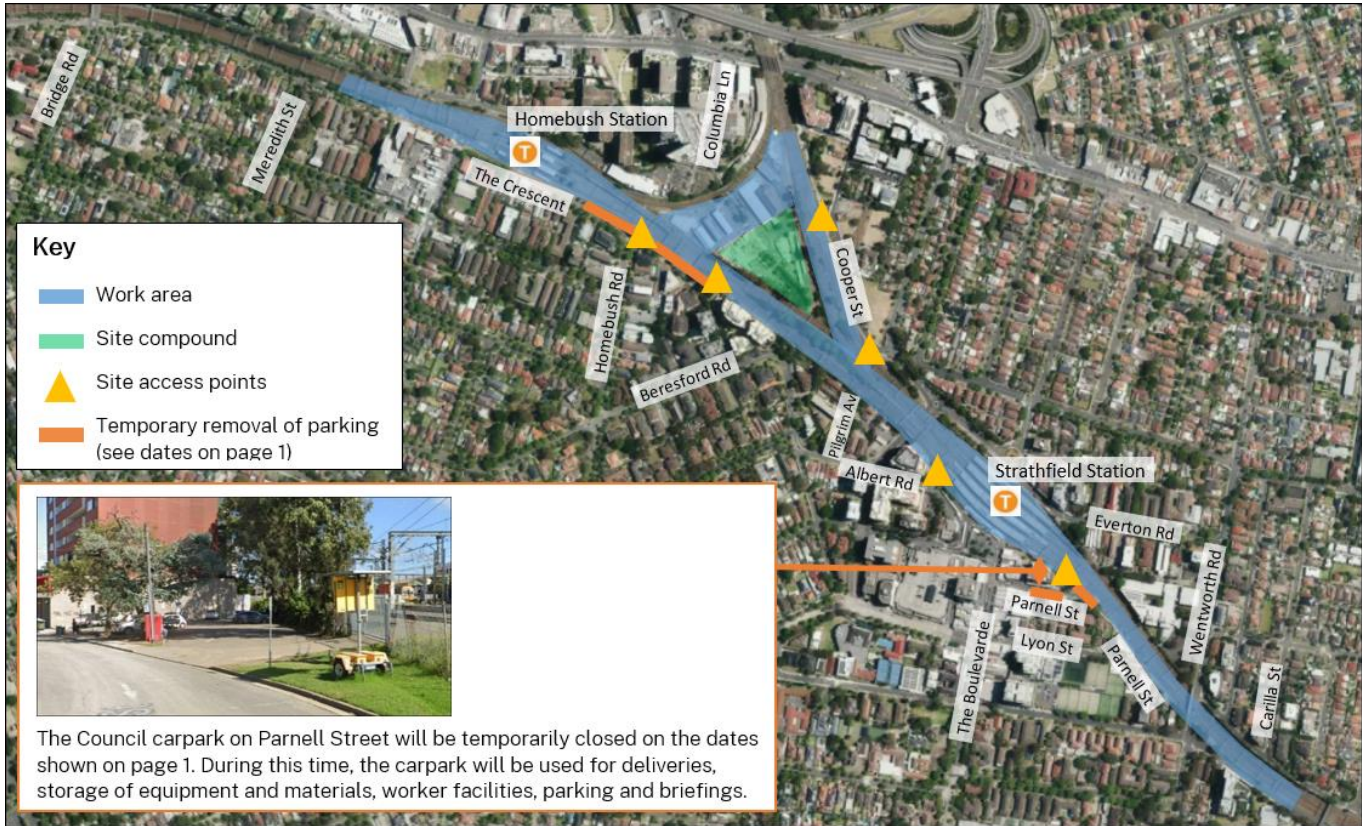

### What will this mean for you?

In addition to temporary parking changes, you may notice:

- traffic control
- an increase in workers and vehicles
- noise from machinery and equipment
- lighting from temporary lighting towers.

## Location of work

## Managing our impacts

We understand construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

## We are going paperless

We are committed to integrating sustainable practices and reducing environmental impacts. Soon we will no longer be distributing paper notifications to residents unless requested. Instead, we will be providing construction updates digitally straight to your inbox.

To continue receiving these updates, please scan the QR code to subscribe to email updates.

If you wish to continue to receive paper notifications, you can request this via the QR code or by contacting us via the details below.
