

Homebush to Strathfield Signalling Upgrade

More Trains, More Services

November and December 2023

Transport for NSW acknowledges the Wangal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program will simplify and modernise the rail network creating high capacity, turn up and go services for many customers.

This project will upgrade the infrastructure inside the rail corridor between Homebush and Strathfield to improve train movements through the stations.

What work are we doing?

Work inside the rail corridor will include:

- investigation work to assist with design
- work on electrical infrastructure such as cables and overhead wiring.

You may also see our teams on Parnell Street, The Crescent and Columbia Lane.
