

More Trains, More Services

Hurstville Crossover project

What happened in December?

During December, excess material excavated at Sydney Terminal, near Central Station, continued to be transported to the Hurstville project site for archaeological testing. The Project Team also installed overhead wiring footings, signalling, and utilities.

What's planned next?

During February, we will carry out the following activities:

- archaeological testing on excess material
- installation of new drainage
- signalling works
- installation of overhead wiring structures
- construction of new cable routes.

Construction will primarily take place from 7am to 6pm Monday to Friday, and 8am to 1pm on Saturdays.

Are there activities planned out of hours?

Some out of hours work is planned to complete. These works are taking place during a scheduled trackwork period when no trains will be running. This enables the construction team to safely carry out essential activities inside the rail corridor.

- 2am, Saturday 20 to 2am, Monday 22 February

We will be contacting residents directly who may be impacted by this work. These works are dependent on weather and site conditions and are subject to change.

Key	
Signalling works	Orange line
New drainage	Purple line
Overhead wiring	Blue line
New cable routes	Yellow line
Site access point	Green line

Where will work take place?

The above map shows the project area inside the Hurstville rail corridor from Hurstville Station to the project access gate at Jack Brabham Drive.

How do we consider the community?

The project team understands construction activities may cause disruption for the community and we will seek to minimise impacts as much as possible. We will also ensure we adhere to strict environmental conditions relating to noise, vibration and dust management.

Will alternate transport services be running this weekend?

For up to date information about replacement services during this scheduled trackwork period please visit transportnsw.info or call 131 500.

How are we staying safe?

We continue to deliver projects across NSW while ensuring the safety of all staff and the community. In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and necessary hygiene practices will be observed.

If you require the services of an interpreter, please contact the Translating and Interpreting Service on 131 450 and ask them to contact Transport for NSW on (02) 9200 0200.

An interpreter will assist you with translation.

About More Trains, More Services

Over the next ten years the More Trains, More Services program will simplify and modernise the rail network so that customers can expect more frequent train services, with less wait times, less crowding and more seats on a simpler, more reliable network.
