

More Trains, More Services

Hurstville Crossover Project

Transport for NSW | May 2022

What are we doing?

We are upgrading the rail infrastructure near Hurstville Station to allow trains to cross over from one track to another. This will mean that local services travelling away from the city can end their journey at Hurstville Station on Platform 4 and then start their return service to the city from Platform 3.

What's been happening?

In February we installed new signalling infrastructure inside the rail corridor.

What's planned next?

In May we will install new overhead wiring infrastructure inside the rail corridor.

When will construction take place?

Work to install new overhead wiring infrastructure will take place between **6am and 6pm on Saturday 21 May**.

This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling work during trackwork periods enables our construction team to complete essential activities safely inside the rail corridor.

Alternate transport options

For up to date information about replacement services during this scheduled track work period please visit **transportnsw.info** or call **131 500**.

Work undertaken in June 2021 for the Hurstville Crossover Project

Where will work take place?

The above map show the work areas inside the rail corridor in Hurstville and the site access points.

The site compound at Forest Road, shown on the right, will be utilised for deliveries, storage of materials and equipment, pre-start work meetings and worker parking.

How do we consider the community?

The project team understands construction activities may cause disruption for the community and we thank you for your patience as we carry out this work. We will adhere to strict environmental conditions relating to noise, vibration and dust management.

How are we staying safe?

We continue to deliver projects across NSW while ensuring the safety of all staff and the community. All work will be carry out in line with current Australian Government guidelines around slowing the spread of COVID-19.

There is a lot of work happening

Multiple projects teams from transport agencies are working inside the rail corridor and the site compound at Forest Road.
