

Hurstville Crossover Project

Have your say

Over the next ten years the More Trains, More Services program will simplify and modernise the rail network, creating high capacity, turn up and go services for many customers.

The More Trains, More Services program is about building a modern and up to date rail system that will play its part in making Sydney a more productive and liveable city.

The current stage of the program will deliver improvements for the T4 Eastern Suburbs & Illawarra Line, South Coast Line and T8 Airport & South Line customers.

What's happening at Hurstville

To contribute to an improved rail network, track work will be done near Hurstville Station to install a rail crossover.

A crossover is a section of rail that connects two parallel tracks, allowing trains to cross over from one track to another.

This will mean that local services on the Country side can end their journey at Platform 4 at Hurstville Station, then start their return service to the city.

The proposal includes:

- approximately 100 metres of track work
- new signalling infrastructure
- a combination of new overhead wiring structures and modifications to existing structures
- modifications to existing drainage structures
- modifications to an existing combined services route for signalling infrastructure.

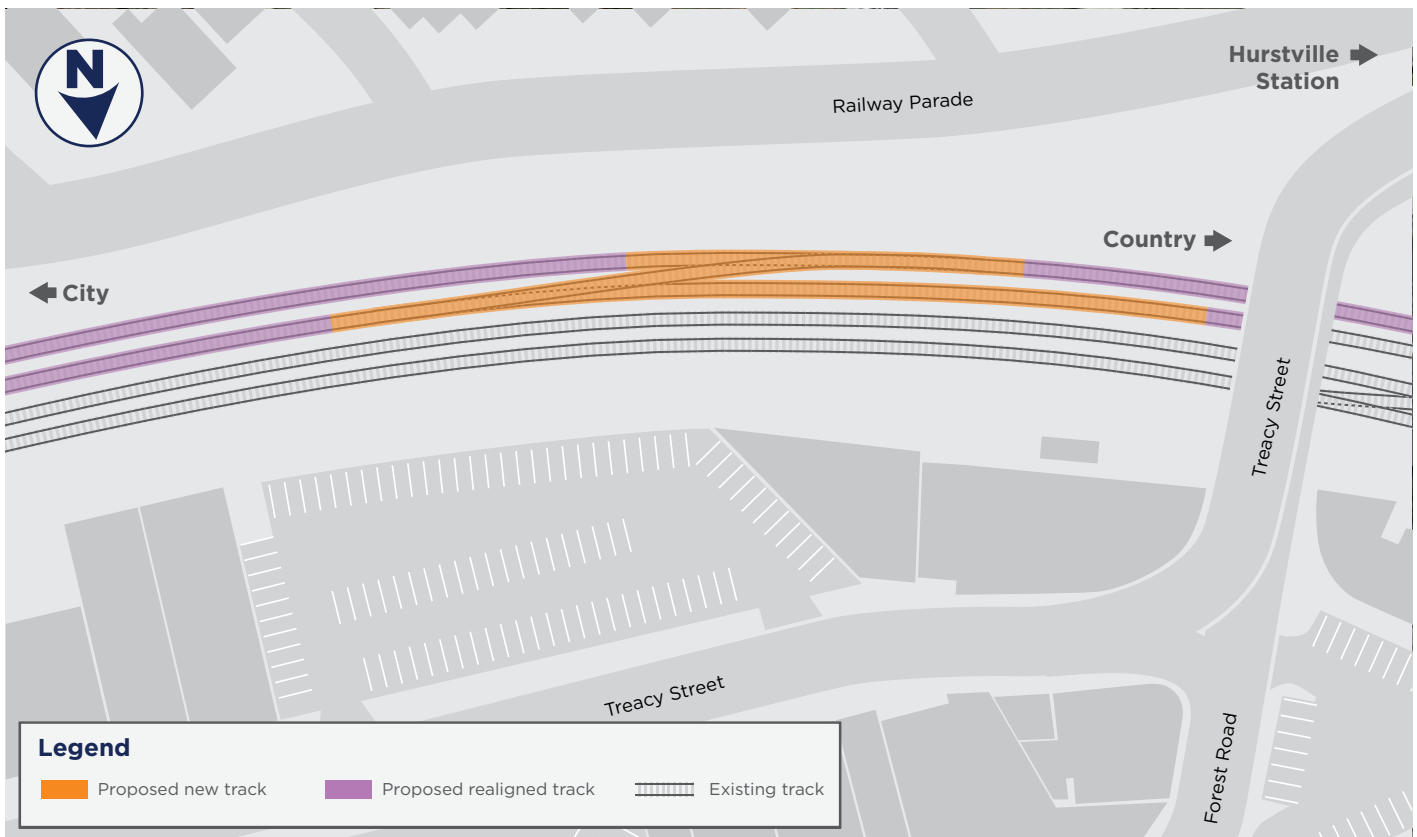

Construction approach

Subject to planning approval, construction could start in late 2020 and take around 12 months to complete. Every effort would be made to minimise construction impacts and we will keep the community informed before any activities take place.

Review of Environmental Factors

The Review of Environmental Factors (REF) is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment and expected impacts of the project on areas including heritage, traffic and transport, visual impact, noise and vibration.

View the plans

You can view the Review of Environmental Factors at:

- transport.nsw.gov.au/projects/mtms
- nsw.gov.au/improving-nsw/haveyoursay
- **Oatley Public Library**
26 Letitia Street, Oatley
- **Georges River Service Centre**
Corner MacMahon and Dora Streets, Hurstville
- **Transport for NSW**
241 O’Riordan Street, The Gateway, Mascot

Next steps

Feedback received in response to the Review of Environmental Factors will be considered and addressed in a Determination Report. The report will be prepared by Transport for NSW and we will let the community know as soon as the report is available to view on our website. Major construction will only start once all approvals have been finalised and a determination on the Project has been made by Transport for NSW.

Have your say

The REF is on public display from **Wednesday 30 October to Wednesday 13 November 2019**.

Feedback received during the public display will help Transport for NSW understand what is important to the community. It will also help in preparing plans for managing impacts during construction. Please provide your feedback via:

- projects@transport.nsw.gov.au
- transport.nsw.gov.au/projects/mtms
- **More Trains, More Services – Hurstville Crossover Project**
Associate Director – Environmental Impact Assessment
Locked Bag 6501
St Leonards NSW 2065

Please provide feedback by **5pm, 13 November 2019**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
