

Nightwork to relocate utilities at United Petroleum Service Station from 14 August

Medlow Bath Upgrade

August 2023

Australian Government

Transport for NSW pays respect to the Wiradjuri, Darug and Gundungurra people as the Traditional Custodians of the lands on which we work and pays respects to Elders past and present.

Transport for NSW is continuing work to prepare for the upgrade of the Great Western Highway at Medlow Bath, between Railway Parade and south of Bellevue Crescent.

What work are we doing?

Work on the United Petroleum Service Station driveway to relocate utilities includes:

- Saw cutting the pavement
- Installing utility conduits across the driveway
- Operating a vacuum truck
- Excavation

When we'll be working

In addition to our daytime construction work, we'll be working up to three night shifts starting from **Monday 14 August**, weather permitting.

Work is expected to be finished by **Friday 19 August**.

Night work hours will be between **6pm and 7am**.

What will this mean for you?

There will be traffic controllers, traffic barriers, lighting and signage in place and you may notice noise from machinery and equipment.

Access to the service station will be closed to the public between 11pm and 4am, when the service station is closed. We have scheduled our work to

ensure driveway access is maintained while the service station is open between 4am and 11pm.

Managing our impacts

We manage our work to minimise impacts to the community and the environment.

This includes:

- Working at night to enable access into the service station during opening hours
- Installing noise mats around our work areas where we can, to reduce noise
- Turning off machinery when not in use
- Grouping utility installation to reduce repeat trenching works in the area at night

If there is any way we can support you during these works, please let us know.

Traffic Changes

A reduced speed limit of 40 km/hr and traffic controllers will be in place.

All road users are advised to follow the directions of signs and traffic control and slow down on approach.

For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

We understand that this work will generate some inconvenience and we thank you for your patience.
