

## More Trains, More Services

### Kingsgrove to Beverly Hills

Transport for NSW | December 2022 – January 2023

#### More Trains, More Services

As part of the More Trains, More Services program, we have been completing upgrades to track, signalling and overhead wiring infrastructure between Kingsgrove and Beverly Hills stations. This work will help facilitate and improve the management and movement of train services.

*The project team installing infrastructure to support overhead wiring between Kingsgrove and Beverly Hills in 2022.*

#### Construction is complete!

We are excited to say that we are finished with our main construction activities between Kingsgrove and Beverly Hills. We have achieved a lot in a short time, including:

- removal, realignment, and installation of 300 metres of overhead wiring
- removal of approximately 200m of redundant track
- removal of redundant signalling equipment
- installation of modern infrastructure so trains can operate safely and efficiently.

In December 2022, the construction team will be completing decommissioning and testing of signalling equipment. This work will involve the use of hand tools and will take place during standard construction hours.

#### Construction hours

Standard construction hours on this project are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.**

#### Happy holidays and farewell

We would like to thank you, our closest neighbours, for your patience whilst we completed construction activities between Kingsgrove and Beverly Hills as part of the More Trains, More Services program.

In January 2023, you may still see the construction team around completing minor activities. These activities will involve site clean-up and recification work.

We want to take this opportunity to wish you and your loved ones a safe and happy holiday season.
