

More Trains, More Services

Kingsgrove to Beverly Hills

Transport for NSW | July until August 2022

More Trains, More Services

As part of the More Trains, More Services program, we are removing redundant track and infrastructure from the rail corridor between Beverly Hills and Kingsgrove stations. This work will facilitate improved movement and management of train services and remove unnecessary maintenance costs.

What's next between Kingsgrove to Beverly Hills?

Between July and August, our work between Kingsgrove and Beverly Hills will involve signalling activities where we are required to remove redundant cables and install new overhead wiring structures and minor rectification work.

Construction hours

Standard construction hours on this project are **7am-6pm Monday to Friday and 8am-1pm on Saturdays.**

Night work

Between July and August, most of our work is scheduled to be carried out during standard construction hours, however some activities are required to take place outside of these hours. We have scheduled this work take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

Upcoming night work:

- **6pm Friday 15 until 7am Monday 18 July**
- **6pm Friday 26 until 7am Monday 29 August.**

Some minor activities like deliveries and site clean-up may also be required to take place at night, however this work is not expected to impact the community. We will contact you directly if out of hours work is anticipated to be noticeable at your address.

How can we better communicate with you?

We strive to develop and maintain strong relationships with our closest neighbours, businesses, customers and stakeholders within the communities in which we work. We would like your feedback on the way we keep you informed about construction activities. If you would like to provide your feedback, please scan the QR code below or visit yoursay.transport.nsw.gov.au/community-engagement
