

# More Trains, More Services

## Kingsgrove to Beverly Hills Asset Rationalisation

### More Trains, More Services

The More Trains, More Services program is delivering rail asset upgrades between Sydney's CBD and the South Coast to support the introduction of the Mariyung Fleet.

As part of the program, we are removing redundant track and infrastructure from the rail corridor between Beverly Hills and Kingsgrove stations. This work will facilitate improved movement and management of train services and remove unnecessary maintenance costs.

The More Trains, More Services program will simplify and modernise the rail network so that customers can expect more frequent train services with less wait times, less crowding and more seats on a simpler, more reliable network.

### What's happening between Kingsgrove and Beverly Hills?

In August 2021, we had planned to:

- remove redundant overhead wiring and signalling infrastructure

- install new signalling equipment and overhead wiring structures
- remove old rail and replace with new rail.

As result of NSW Government Public Health Orders and Restrictions which saw construction paused for a period of two weeks, these activities did not go ahead and have been re-scheduled for October, November and December 2021.

### Revised construction hours due to COVID-19

The NSW Government has introduced new rules to support industry and continue the delivery of critical infrastructure during COVID-19. In accordance with the *Environmental Planning and Assessment (COVID-19 Development – Infrastructure Construction Work Days No.2) Order 2020*, standard construction hours are 7am to 6pm Monday to Sunday, including public holidays.

## Night work

In November, some activities are required to take place outside of standard construction hours, between **6pm Friday 19 November until 7am Monday 22 November**.

This work has been scheduled to take place during a Sydney Trains trackwork period when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

These times are subject to change as a result of NSW Government Public Health Orders and Restrictions. For up to date information, please visit [yoursay.transport.nsw.gov.au/mtms-kingsgrove](https://yoursay.transport.nsw.gov.au/mtms-kingsgrove)

*For up to date information about alternative transport services during these times, please visit [transportnsw.info](https://transportnsw.info) or call 131 500.*

## Temporary parking and traffic changes

Between **5pm Tuesday 16 November and 5pm Saturday 27 November**, we will require the use of 60 car parking spaces for the safe delivery of machinery and equipment between Beverley Hills and Kingsgrove stations.

We will temporarily reserve 30 spaces off Tooronga Terrace and 30 spaces off Morgan Street, as indicated in the image below.

Traffic control will be in place to minimise disruptions to motorists and signage will be installed in advance to reserve these spaces.

## No more paper notifications this year

In an effort to reduce our environmental impact, we are minimising our paper production on this project.

Unless our activities are rescheduled or new impacts are identified, we don't anticipate delivery of another paper notification this year.

The project webpage will remain accessible, including all community notifications distributed to date. To access this content, please scan the QR code below to access the project webpage.

All work will be carried out in line with current NSW Government Public Health Orders and Restrictions, which are subject to change.

If work is postponed and expected to impact your residence, we will contact you directly to advise of any changes.

We thank you for your patience whilst we complete these works.
