

More Trains, More Services

Kingsgrove to Beverly Hills

Transport for NSW | September – October 2022

More Trains, More Services

As part of the More Trains, More Services program, we have been removing redundant track and infrastructure from the rail corridor between Kingsgrove and Beverly Hills stations. This work will facilitate improved management and movement of train services and remove unnecessary maintenance costs.

We are almost out of here!

We are approaching completion of construction between Kingsgrove and Beverly Hills, with only minor work remaining.

This remaining work includes testing the operational capacity of the upgraded signalling equipment and involves the use of hand tools. Remaining activities will be completed during standard construction hours between **7am and 6pm Monday to Friday and 8am until 1pm on Saturdays.**

What we have completed:

- Removed, realigned, and installed overhead wiring and signalling equipment so trains can operate safely and efficiently
- Removed approximately 200 metres of redundant track to declutter and simplify the network
- Installed modern infrastructure to support improved services.

Thank you for having us

We would like to thank you, our closest neighbours, for your support and patience as we work to build a better network.
