

Sefton Lidcombe Infrastructure Upgrade

More Trains, More Services

November 2023

Transport for NSW acknowledges the Burrumattagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The More Trains, More Services program is simplifying and modernising the rail network creating high capacity, turn up and go services for many customers.

What work are we doing?

In November 2023, work includes:

- site survey and investigation work for future planning of construction, environment and safety controls
- installation of signalling cables and new trackside equipment
- track modifications and overhead wiring adjustment work.

When and where we'll be working

In November 2023, work will be undertaken in and adjacent to the rail corridor at Lidcombe.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

Out of hours work

Some work is required to take place outside of standard construction hours on this project.

From **6pm Friday 3 November until 7am Monday 6 November** we will be working outside of standard construction hours.

We schedule work outside of standard construction hours to take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter

services and improving the safety of our construction team and customers.

What will this mean for you?

You may notice:

- workers and vehicles
- lighting from temporary lighting towers
- moderate noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise the impacts where possible, including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts
- locating equipment as far away from residents and businesses as possible and directing lighting away from residents
- conducting on site monitoring to ensure compliance with strict environmental conditions relating to noise and vibration.

We are going paperless

We are committed to reducing environmental impacts and are phasing out paper notifications.

Instead, we will be providing construction updates via email.

To stay informed about construction work in your area, please visit the project webpage **yoursay.transport.nsw.gov.au/mtms-lidcombe** and complete the short survey.
