

# Lidcombe Infrastructure Upgrade

## More Trains, More Services - rescheduled work

October 2023

Transport for NSW acknowledges the Burramattagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Recently we informed you of deliveries taking place at night. This work has been postponed by one week. Please see update dates and information below.

### What work are we doing?

As part of this project, we will be accepting some deliveries between **11pm Wednesday 25 October and 1am on Thursday 26 October 2023**. This work has been scheduled at night when traffic flow is reduced to minimise disruptions to motorists and

improve the safety of our construction team and customers.

### Where we'll be working

Delivery vehicles will travel along William Street and New Street West to access site compounds and laydown areas adjacent to the rail corridor

## Location of work area

Please do not park in the shaded blue area on New Street West between

**7pm Wednesday 25 October and 1am Thursday 26 October**

## What does this mean for you?

You may notice some noise during this period and every effort will be made to minimise impacts, including turning off vehicle engines when not in use.

We would like to thank you, our closest neighbours, for your ongoing support as we work to deliver an improved rail network.
