

Lidcombe Infrastructure Upgrade

More Trains, More Services

January 2024

Transport for NSW acknowledges the Burramattagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Recently we informed you of upcoming work required to take place outside of standard construction hours between 6pm Friday 12 January and 7am 15 January 2024.

What work are we doing?

As part of this work, we will be **reserving 15 car spaces** (see map overleaf) between **6pm Sunday 7 January and 7am Monday 15 January 2024** to enable safe access for equipment and deliveries into the site compound, and laydown areas.

Where we'll be working

Delivery vehicles will travel along William Street and New Street West to access the site compound and laydown areas adjacent to the rail corridor.

Location of work area

Please do not mark in the shaded blue area on New Street West between **6pm Sunday 7 January and 7am Monday 15 January 2024**.

What does this mean for you?

You may notice some noise during this period and every effort will be made to minimise impacts, including turning off vehicle engines when not in use.

We would like to thank you, our closest neighbours, for your ongoing support as we work to deliver an improved rail network.
