

More Trains, More Services

Sydney Terminal Area Reconfiguration Project – Central

We are upgrading the rail infrastructure between Sydney Terminal and Erskineville Junction, to support the introduction of the new fleet of trains operating on the South Coast Line which will access platforms 1 to 14 at Central Station.

What has happened lately?

During July, the project team was unable to carry out their planned work in line with recent restrictions introduced by the NSW Government. This work will be rescheduled to later this year.

What's planned next?

In August, we will carry out the following activities:

- removal and installation of new drainage
- trackwork
- deliveries of infrastructure and materials.

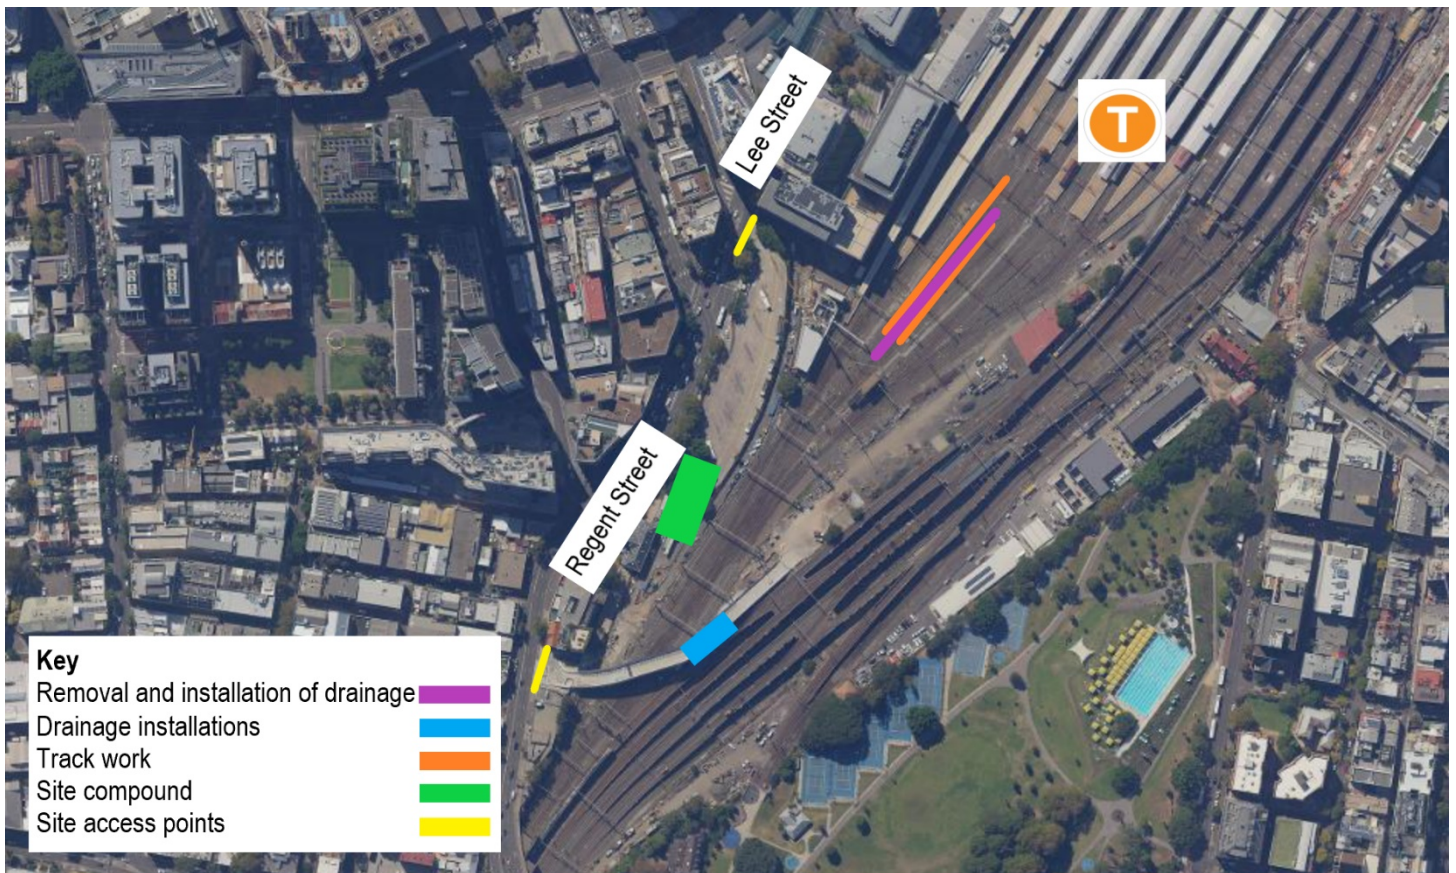

This work is dependent on weather and site conditions and is subject to change.

Are there activities planned outside standard construction hours?

To minimise disruption to customers, and to improve the safety of our workers and the community, oversize delivery and pick up of rail infrastructure will take place from **Wednesday 25 August to Thursday 26 August (2 nights) between 6pm to 7am.**

Some construction work will also take place outside of standard construction hours inside the rail corridor from **11pm, Friday 27 August to 2am Monday 30 August.**

This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables our construction team to complete essential activities safely.

Where will work take place?

The above map shows the project area in the Central Station intercity train yard. The project site compound is located at Mortuary Station.

Alternate transport options

For up to date information about replacement services during this scheduled track work period please visit transportnsw.info or call **131 500**.

How are we staying safe?

In line with recent restrictions introduced by the NSW Government on 17 July 2021 to help keep our communities safe, construction activities on the Sydney Terminal Area Reconfiguration Project are paused until Friday 30 July. We are making arrangements for our work activities to safely recommence from 31 July 2021, as detailed in this notification. Should these restrictions change based on advice by the NSW Government, which may impact the timing of our work, the community will be notified. We encourage you to subscribe to our project email distribution for the latest information, by calling us on 1800 684 490 or emailing projects@transport.nsw.gov.au.

Multiple project teams from transport agencies are working within the Central rail corridor. For more information on work being completed by Sydney Trains, please contact **1300 656 999**, or visit www.transport.nsw.gov.au/sydtraincommunity.
