

# More Trains, More Services

## Sydney Terminal Area Reconfiguration Project - Central

Transport for NSW | July 2022

### What are we doing at Central?

We're upgrading the rail infrastructure between Sydney Terminal and Erskineville Junction to support the introduction of the new fleet of trains operating on the South Coast Line which will access platforms 1 to 14 at Central Station.

### What's happened lately?

In June the project team relocated existing signalling infrastructure inside the rail corridor, including the signal cabinet shown in the photo below.

### What's planned next?

In July we will carry out the following activities:

- track work
- installation of new signalling and overhead wiring infrastructure.

### When will work take place?

Standard construction hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.**

Some deliveries and work will take place outside of these hours:

- **between 6pm Thursday 21 July through to 7am Friday 22 July**
- **between 6pm Friday 22 July to 6pm Saturday 23 July**
- **between 6am to 10pm Sunday 24 July.**

The work will take place during scheduled Sydney Trains trackwork periods when no trains will be running. Scheduling work outside of standard construction hours enables our team to complete essential activities safely.

Work is dependent on weather, site conditions and other external factors.

### Changes to planned work

There is a possibility that some of our planned work may be postponed. To register for digital updates, including changes to planned work, please email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au) with 'Progress updates – MTMS Central' as the subject line and include your name and address.

## Where will work take place?

The above map shows the site compound located off Regent Street and the work area inside the rail corridor.

The project team will utilise the site compound for storage of materials and equipment, pre-start work meetings and worker parking.

## How do we consider the community?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

## There's a lot of work happening

Multiple project teams from transport agencies are working within the Central rail corridor. For more information on work completed by Sydney Trains, please contact **1300 656 999**, or visit **[www.transport.nsw.gov.au/sydtraincommunity](http://www.transport.nsw.gov.au/sydtraincommunity)**.
