

More Trains, More Services

Sydney Terminal Area Reconfiguration Project – Central

What are we doing at Central?

We're upgrading the rail infrastructure between Sydney Terminal and Erskineville Junction, to support the introduction of the new fleet of trains operating on the South Coast Line which will access platforms 1 to 14 at Central Station.

What has happened lately?

In August, we installed new drainage and carried out trackwork in preparation for brand new tracks to be introduced to the network in October.

What's planned next?

In October, we will carry out the following activities:

- trackwork (brand new sets of track crossovers)
- installation of new electrical and signalling infrastructure
- cable route construction
- removal of old redundant infrastructure
- deliveries of infrastructure, materials, and equipment.

When will construction take place?

To support the construction industry through the COVID-19 pandemic, the NSW Government has extended an amendment to the legislation regarding standard construction hours.

This amendment enables activities to be carried out **between 7am and 6pm Monday to Sunday and public holidays.**

Some construction work will take place outside of these hours between:

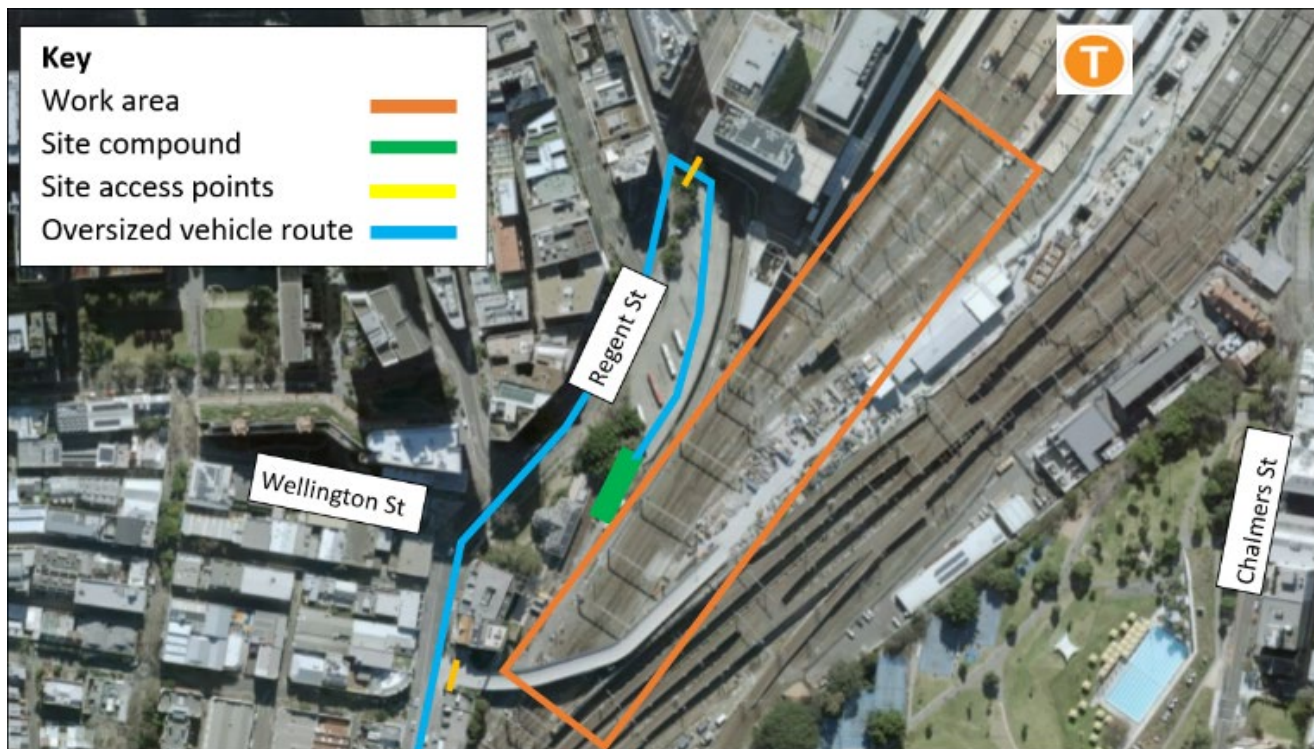

- **10pm Friday 15 October through to 2am Monday 18 October, and**
- **10pm Friday 29 October through to 2am Monday 1 November.**

This work will take place during scheduled Sydney Trains trackwork periods when no trains will be running. Scheduling construction work outside of standard construction hours enables our construction team to complete essential activities safely.

To minimise disruption to customers, and for the safety of our workers and the community, oversize delivery and pick up of rail infrastructure will also take place at night between **7pm and 6am** on the following dates:

- **Tuesday 12 to Thursday 14 October (3 nights)**
- **Wednesday 20 and Thursday 21 October (2 nights)**
- **Tuesday 26 to Thursday 28 October (3 nights).**

Completion of all work is dependent on a number of factors including workforce availability due to the current Covid19 NSW Health guidelines, weather and site conditions and is subject to change. For updates call us on **1800 684 490** or visit our website at www.transport.nsw.gov.au/mtms.

Where will work take place?

The above map shows the project area in the Central Station train yard and the project site compound is located at Mortuary Station.

Alternate transport options

For up to date information about replacement services during this scheduled track work period please visit transportnsw.info or call **131 500**.

How do we consider the community?

The project team understands construction activities may cause disruption for the community and we thank you for your patience as we carry out this work. We will adhere to strict environmental conditions relating to noise, vibration and dust management whilst construction is taking place.

How are we staying safe?

In line with current Australian Government guidelines around slowing the spread of Coronavirus the site will have a dedicated Covid Marshall to ensure all people entering the site have been tested for Covid-19 and are safe to enter the site (as per current NSW Health guidelines).

Masks will be worn at all times, and where possible all work will be carried out at with a 1.5m physical distance and all necessary hygiene practices will be observed.

There's a lot of work happening

Multiple project teams from transport agencies are working within the Central rail corridor. For more information on work completed by Sydney Trains, please contact **1300 656 999**, or visit www.transport.nsw.gov.au/sydtraincommunity.
