

More Trains, More Services

Sydney Terminal Area Reconfiguration Project – Erskineville

Transport for NSW | March 2022

What are we doing?

We are upgrading the rail infrastructure between Sydney Terminal and Erskineville Junction to simplify and modernise the rail network so that customers can expect more frequent train services in the future.

What's been happening?

In February we installed new overhead wiring and electrical infrastructure.

What's planned next?

In March we will carry out the following activities:

- track work, including the removal of an existing section of track and installation of new tracks
- electrical work
- installation of new overhead wiring infrastructure
- deliveries of infrastructure and materials.

All work is dependent on weather and site conditions and is subject to change.

When will work take place?

To support the construction industry through the COVID-19 pandemic, the NSW Government extended an amendment to the legislation regarding standard construction hours enabling activities to be carried out between **7am and 6pm Monday to Sunday and public holidays.**

This amendment will expire at the end of March when standard hours will revert to **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.**

Upcoming out of hours work

We will be working outside of standard construction hours from **2am Saturday 19 March through to 2am Monday 21 March.**

This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables our project team to complete essential activities safely.

Throughout March there will also be a number of overnight deliveries to the site compound adjacent to Burren Street via Swanson Street.

Further updates about these overnight deliveries will be provided.

Where will work take place?

The above map shows the work areas inside the rail corridor and our site compounds. The site access points are on Swanson Street and Railway Parade.

The project team will continue to utilise the site compounds for deliveries, storage of materials and equipment, offices, pre-start work meetings and worker parking.

How do we consider the community?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

How are we staying safe?

We continue to deliver projects across NSW while ensuring the safety of all staff and the community. All work will be carry out in line with current Australian Government guidelines around slowing the spread of COVID-19.

There's a lot happening

Currently there are multiple project teams, transport agencies and contractors working within the Erskineville rail corridor. For more information on work being completed by Sydney Trains, please phone **1300 656 999** or visit www.transport.nsw.gov.au/sydneytraincommunity.
