

Sydney Terminal Area Reconfiguration Project

More Trains, More Services

March 2023

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What work are we doing?

Work is continuing on the Sydney Terminal Area Reconfiguration Project.

In March we'll install fibre cables that will carry signalling information for train drivers.

We'll use a specialised rail truck to transport the fibre cables inside the rail corridor and an elevated work platform to reach any elevated conduits (existing tubes that will protect the new cables).

When and where we'll be working

We'll be working inside the rail corridor in Eveleigh, Redfern and near Central Station from **5am Saturday 18 March to 2am Monday 20 March**. Please refer to the map overleaf.

The work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables us to complete essential work safely.

What will this mean for you?

You may notice:

- Workers and vehicles
- Noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption for the community.

We'll seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

There's a lot happening

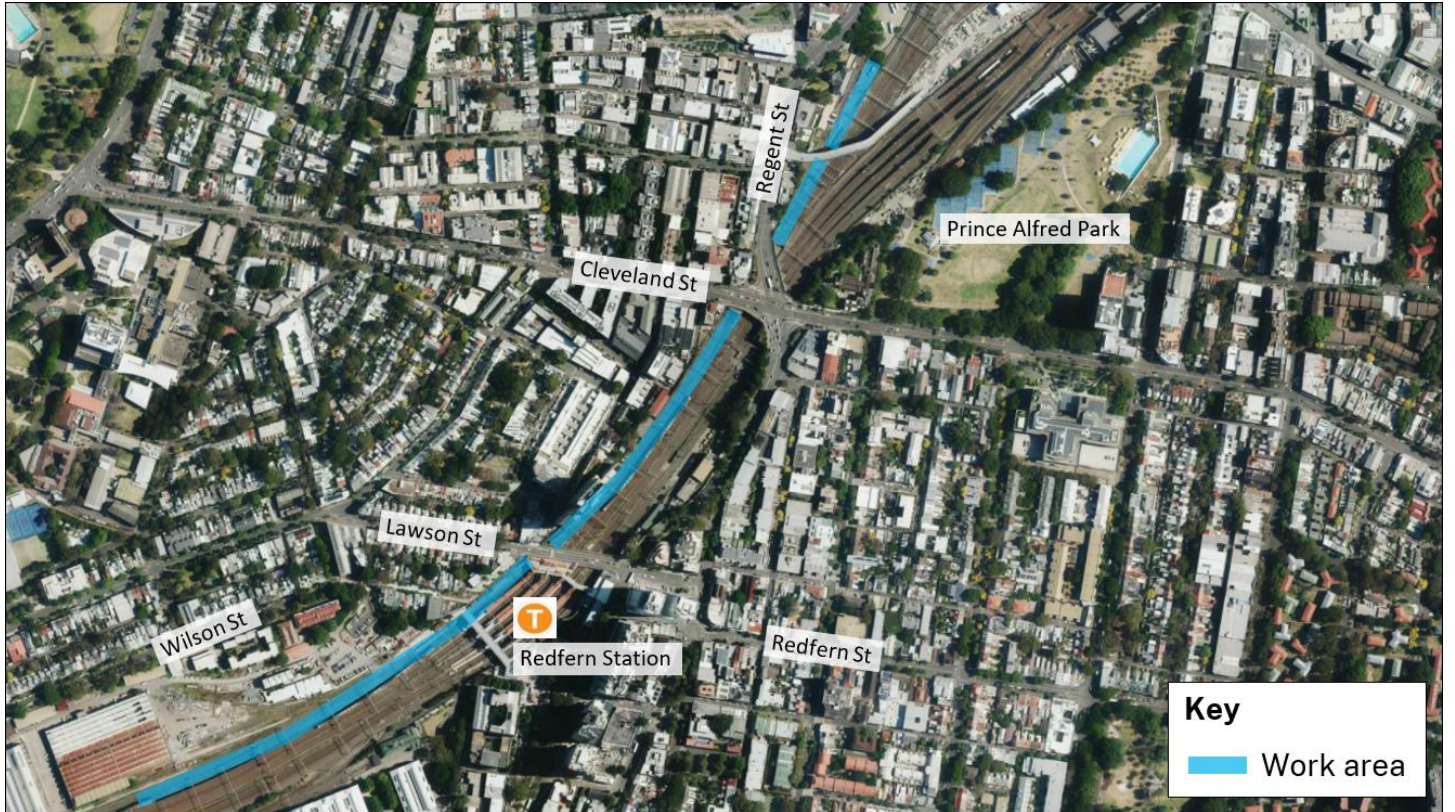

Currently there are multiple project teams, transport agencies and contractors working within the rail corridor.

For more information on work being completed by **Sydney Trains**, please phone 1300 656 999 or visit www.transport.nsw.gov.au/sydtraincommunity.

For more information on work being undertaken on the **Redfern Station Upgrade - New Southern Concourse project** please visit www.transport.nsw.gov.au/projects/current-projects/redfern-station-upgrade-new-southern-concourse, or phone 1800 684 490.
