

More Trains, More Services

Sydney Terminal Area Reconfiguration Project

Over the next ten years the More Trains, More Services program will simplify and modernise the rail network, creating turn up and go services for many customers. It means customers can expect more frequent train services, with less wait times, less crowding and more seats on a simpler, more reliable network.

Project update

Upgrades to rail infrastructure between Sydney Terminal and Erskineville Junction are required to support the introduction of the new fleet of trains operating on the South Coast Line that will access platforms 1 to 14 at Central Station.

Preliminary site investigations started in June with site establishment and main construction work progressing in the coming months. Construction will take around two years to complete.

Work we are doing to improve the train network for customers and our staff

- reconfiguration of the railway tracks to improve the efficiency of the network
- realignment of overhead wiring and signals
- movement of underground utilities, structures and drainage.

What you will notice

We are continuing to deliver projects across NSW while ensuring the safety of all staff and the community. In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and necessary hygiene practices will be observed.

Activities being undertaken in September include:

- site investigation and survey work
- geotechnical, overhead wiring, signalling and service investigations
- site and laydown areas established for materials and equipment

Staying Safe

We are continuing to deliver projects across NSW while ensuring the safety of all staff and the community. In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and necessary hygiene practices will be observed.

Out of hours work - September

To minimise disruption to customers, and to improve the safety of workers and the community, some night work is required this month to complete survey investigations and deliveries for site establishment.

From 6pm, Thursday 3, through to 6am, Friday 4 September.

Deliveries will arrive outside of standard construction hours via Regent Street, Chippendale and Swanson Street, Erskineville. Residential parking and side streets will remain open during this time.

Track work weekends

- From 3am, Saturday 5, through to 2am, Monday 7 September
- From 3am, Saturday 19, through to 2am, Monday 21 September
- From 3am, Saturday 26, through to 2am, Monday 28 September.

Please note this is dependent on weather and site conditions and is subject to change. Traffic control will be in place during this time.

Indicative work calendar – September 2020

Key						
	day work (7am - 6pm)	night work (6pm-6am)	track work weekend (24 hours)			
Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30
