

Macquarie Fields mid-week platform work

As part of the Glenfield to Campbelltown Infrastructure Upgrade, we will be carrying out work to prepare platform 1 for the installation of overhead wiring structures at Macquarie Fields **between 7am Thursday 20 April and 6pm Friday 21 April 2023**. This work will take place during standard hours only (7am to 6pm).

Passenger services will not be impacted. There will be some noise associated with this work.

We acknowledge the disruptive nature of construction work on our closest neighbours and would like to thank you for your patience as we work to improve services on the network.

For all future updates about construction work and impacts associated with this project, please visit yoursay.transport.nsw.gov.au/mtms-glenfieldtocampbelltown
