

# Weekend Closures of Mandagery Creek Bridge at Manildra from 18 August 2023

## Mandagery Creek Bridge replacement project

August 2023

Transport for NSW acknowledges the Wiradjuri people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is funding the replacement of Mandagery Creek Bridge on the Henry Parkes Way at Manildra. The new \$12 million bridge will be stronger, safer and provide enhanced access for heavy vehicles and pedestrians.

### When we'll be working

Work is well underway on the first stage of the Mandagery Creek Bridge replacement project.

To allow for essential construction works, up to **ten** weekend closures of the Mandagery Creek Bridge will be required.

The first closure will be **7pm Friday 18 August to 6am Monday 21 August 2023**.

During each closure, the bridge will be closed to all traffic from **7pm Friday to 6am Monday**.

Please be aware that during the closures there may be times where construction activity on site appears low – this is to allow for sufficient concrete curing to take place.

### What will this mean for you?

Mandagery Creek Bridge will be closed in both directions with a detour via Cudal in place.

The weekend closures will occur **non-consecutively throughout the remaining duration of the project**, which is expected to be complete in mid-2024, weather permitting.

Dates of the planned weekend closures will be advertised at least two weeks in advance on roadside

electronic signage and our website. Wet weather may result in a change of date at short notice.

There is currently no pedestrian access across Mandagery Creek due to the loss of the pedestrian bridge in the November 2022 flood event.

Following the first closure weekend, lane width will be reduced from 3.5m to 3m.

### Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

A detour via Cudal will be in place for all vehicles needing to travel across Mandagery Creek Bridge, including Manildra residents needing to travel from one side of town to the other.

The detour will add about 30 minutes to trips for Manildra residents who need to travel across Mandagery Creek, as well as for motorists travelling to and from Manildra across the bridge.

The detour will add about 15 minutes to journeys between Parkes and Orange.

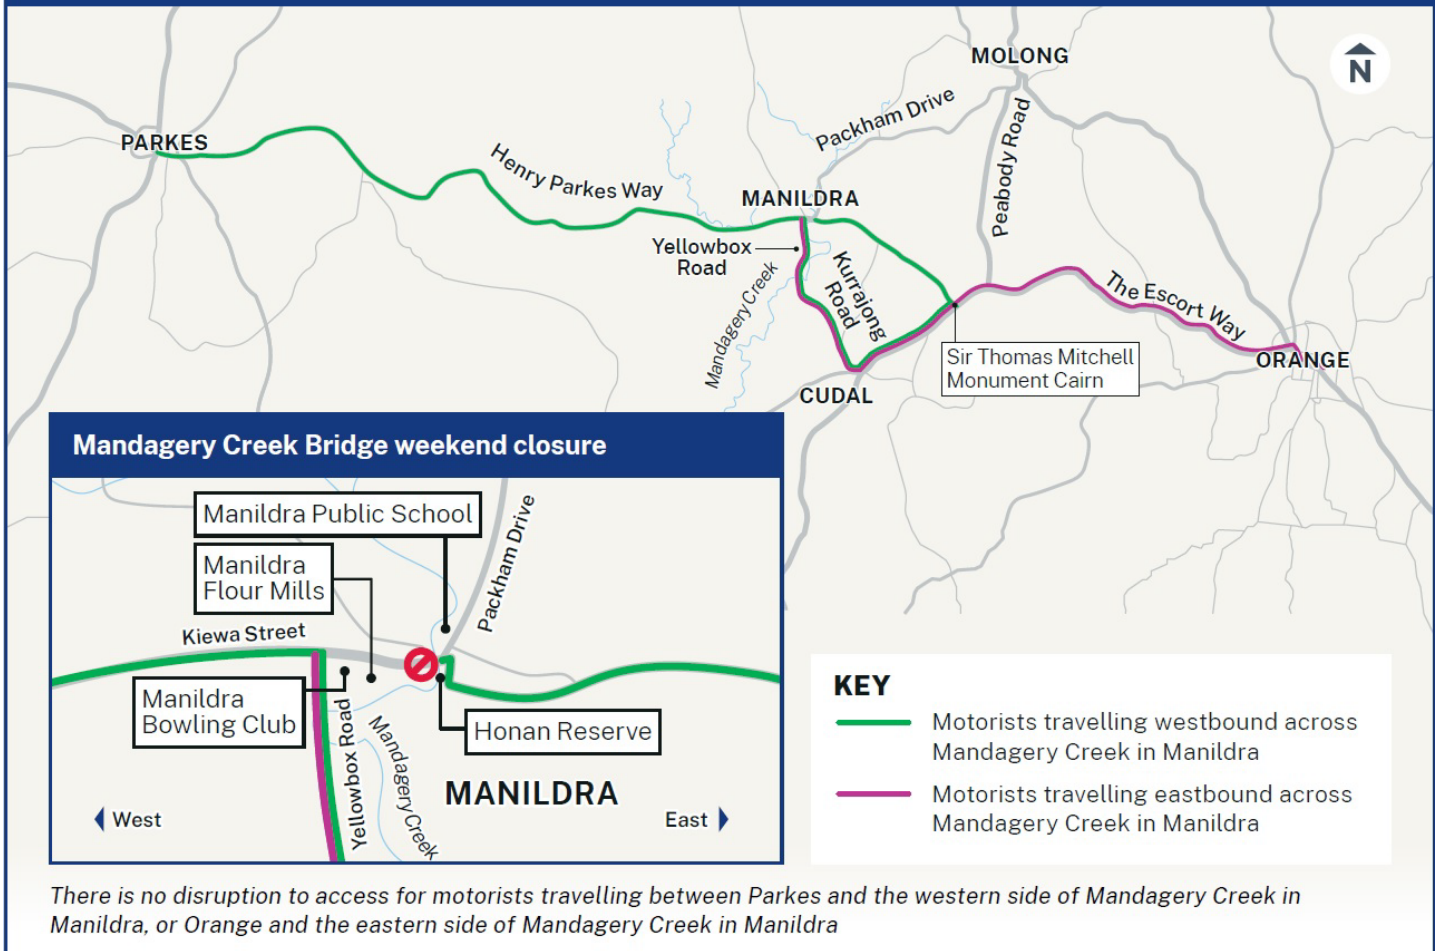

We have included a map to show the location of the closure and the detour described above.

Traffic control personnel will be on site full time during the closure periods.

Please follow the direction of signs and traffic control. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.
