Mascot Power Supply Upgrade Project

Out of hours deliveries - Bourke Street (between John and Coward streets)
Transport for NSW | 27 June 2022

What are we doing?

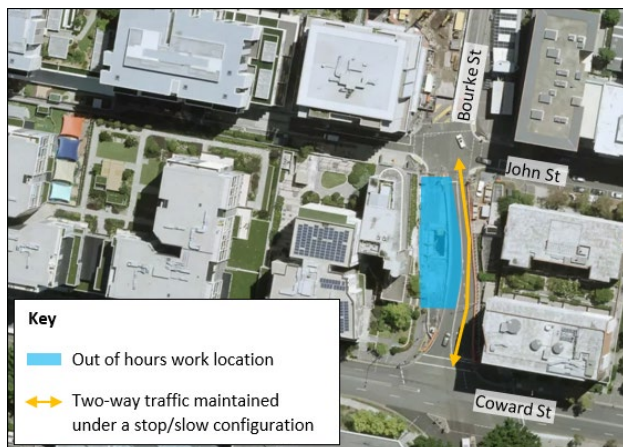

Work at the retrieval shaft on Bourke Street is progressing well and we are preparing to re-open the footpaths between Coward and John streets by October 2022.

Upcoming out of hours work

Between 8pm and 6am on Monday 4 July there will be overnight deliveries of pre-cast concrete planks that will act as a roof over the retrieval shaft. This roof will serve to close the shaft prior to concreting and waterproofing works which will permanently seal the shaft prior to the reinstatement of the road.

A crane will be located in the northbound lane on Bourke Street, adjacent to the retrieval shaft, to lift the planks into place. The project team will then secure the planks using hand tools.

This work will need to be undertaken out of hours when traffic volumes are lower for the safety of pedestrians, motorists and workers.

Traffic changes

Due to safety and traffic approvals, the northbound lane on Bourke Street (between Coward and John streets) will be temporarily closed during the work. Two-way traffic will be maintained under a stop/slow traffic configuration.

How will this impact me?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and provide further details to impacted residents in advance of this work.

We thank you for your patience during this important work.

Contact us

If you have any questions about the extended work hours, please ask to speak to Roos from the Mascot Power Supply Upgrade team:
