

Mascot Power Supply Upgrade

More Trains, More Services

November and December 2023

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading the power supply to support an increase to the number of services operating through the T8 Airport Line tunnel and support the introduction of the new fleet of trains operating along the T8 Airport Rail Line.

What work are we doing?

In November and December 2023, we will continue electrical work inside the substation at 166 O’Riordan Street and installation of a new 10.5-metre-high fence around the perimeter.

Additionally, we are renewing the footpath and driveway at the substation.

When and where we’ll be working

Standard construction hours are between **7am and 6pm Monday to Friday** and **8am and 1pm on Saturdays**.

We’ll be working in the substation site at 166 O’Riordan Street and in the site compound at 200 O’Riordan Street. The map overleaf shows the work locations.

Out of hours work

Some work will take place inside the T8 Airport Line tunnel and on Bourke Street near Mascot station. The sites at 166 and 200 O’Riordan Street will be used to support this work outside of standard construction hours:

- between **11pm and 4am from Monday 6 November to Monday 20 November 2023**
- from **10pm Friday 24 November to 5am Monday 27 November 2023**
- from **10pm Friday 8 December to 5am Monday 11 December 2023**

- from **6pm Saturday 2 December to 8am Sunday 3 December 2023**.

Furthermore, we will undertake electrical work between **7am to 6pm each Saturday** until December 2023 at the substation.

Please note, there is likely to be further out-of-hours work in December due to the footpath and driveway renewal work. We will notify you if this is required.

What will this mean for you?

There will be **pedestrian changes on O’Riordan Street between 10am and 3pm from Wednesday 1 November to Thursday 30 November 2023**. This is to allow oversized deliveries to access the work area.

The footpath on the southern side of O’Riordan Street (between Bourke Road and King Street) will be closed. A detour will be in place via the northern side of O’Riordan Street. Signage will be installed to notify pedestrians. Please refer to the map overleaf.

You may also notice:

- workers and vehicles
- noise from machinery and equipment
- traffic controllers.

Managing our impacts

We understand our work may cause disruption to the community. We will seek to minimise impacts as much as possible and follow strict environmental conditions relating to noise, vibration, and dust management.

Progress photo of the fence installation taken in September 2023. The upper fence will reach 10.5 metres and installation will continue in November and December 2023.

We are going paperless

In case you haven't heard, soon we'll no longer be distributing paper notifications (unless requested) to reduce our environmental impacts. Instead, we will contact you via email when there is work that may impact you.

If you haven't already, please scan the QR code and fill out the form to register for email updates.

To continue receiving paper notifications, you can request this via the QR code or call us at **1800 684 490**.

Thank you to residents who have registered already.
