

Mascot Precinct Update

More Trains, More Services

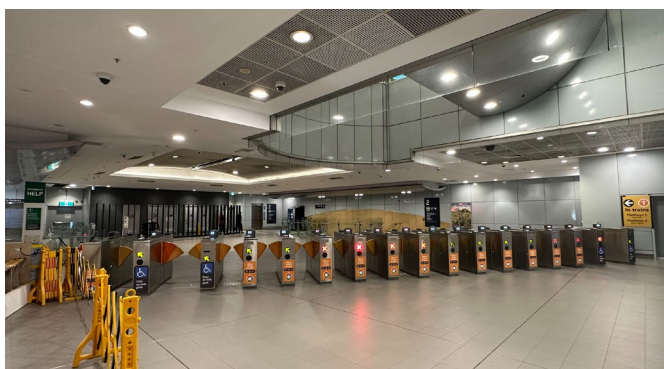

December 2022 and January 2023

Work is progressing in Mascot

Transport for NSW is continuing construction of the Mascot Station Upgrade and the Mascot Power Supply Upgrade as part of the More Trains, More Services program.

The Station Upgrade team continued with their steady progress on the new western entry station structure in November. Excavation works have continued and main works in the station are nearing completion.

New ticket gates installed on the concourse.

What's planned during December and January?

During December and January, the Station Upgrade team will continue excavating a further 1.4 metres down to the bottom of the new lift pit. The next activities will include structural concrete and steel works.

The team will commence breakthrough of the existing station wall to link the new western entry. The structural steel lift shaft and street level entrance canopy will also be installed. Other works will include:

- scaffolding works
- dewatering
- minor road works where required
- saw-cutting
- building fit-out and installation of services within the new western entry
- defect rectification as required within the station.

As we continue excavation of the new western station entry, there may be some noise, dust and vibration impacts associated with works. We will take every possible step to minimise impacts including noise and vibration monitoring and dust suppression. Ongoing through to the end of December and January, excavation activities will continue to occur, which will expose acid sulphate soils. These soils oxidise in the presence of air and create sulphur dioxide, which can produce an odour which may be noticeable. While it may be unpleasant, it is not toxic or harmful. To help mitigate any impacts the project team will ensure air ventilation systems are in place on site, and if required scent cannons will be used to freshen the surrounding air.

Digging to the concourse level at the site of the new western entrance of the station.

Upcoming out-of-hours work

Mascot Station Upgrade

Throughout December and January, there will be out-of-hours work within the station and deliveries and collection of equipment and plant for the excavation work. Specific times and dates for these activities will be notified in advance of the work occurring.

When will work take place?

Standard construction hours are **7am to 6pm 7am to 6pm Monday to Saturday**.

Upcoming site shutdown

Works on the Mascot Station Upgrade project will continue until **Friday 23 December 2022**. Works will resume after the Christmas period from **Tuesday 27 December 2022 to Saturday 31 December 2022 between 7am and 6pm**. The works in the new year will resume on **Tuesday 3 January 2023**.

We would like to wish you and your family a safe and happy Christmas and New Year. We thank you for your ongoing patience as we undertake these important works.

Extended Saturday hours

Mascot Station Access Upgrade

As we advised in the November Mascot Precinct Update notification, work on the Mascot Station Upgrade had been adversely affected by the impacts of COVID on the workforce over the last 18 months, together with the extreme rain events that we have encountered. To make up for lost time and the impact on our construction program, we are extending Saturday hours to 6pm. This change took effect from Saturday 23 July 2022 and will remain in place until project completion.

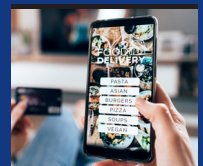

There's a lot happening

Work continues on the Mascot Substation and Power Supply Upgrade project. For the latest information on this project, please visit yoursay.transport.nsw.gov.au/mtms-mascot
