

Essential Maintenance on McFarlane Bridge, Maclean from 19 October

The NSW Government is funding essential maintenance work on McFarlane Bridge, about one kilometre south of Maclean, to maintain the structural integrity of the bridge and improve safety for road and waterway users.

Transport for NSW will deliver this essential maintenance work from Thursday, 19 October which includes girder and deck tightening.

Work will be carried out from 6am to 6pm and is expected to be completed in about two days, weather permitting.

How will the work affect you?

This work will involve activities which generate noise. We will make every effort to minimise impacts during high noise activities by turning off machinery when not in use.

Traffic changes

Single lane, alternating traffic flows and a reduced speed limit of 40km/h will be in place during work hours resulting in delays of up to 10 minutes.

Motorists should keep to the speed limit and allow extra travel time.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions about this work, please contact Dylan Kelly at Dylan.kelly@transport.nsw.gov.au or 0439 438 665.
