

Mortdale Maintenance Centre upgrade

Upcoming night work

As part of the More Trains, More Services work on the Mortdale Maintenance Centre Upgrade, we are required to complete some overhead wiring (installation of new switches) activities outside of standard construction hours (7am-6pm, 7 days a week) **between 6pm Friday 24 June and 7am Monday 27 June 2022.**

These activities will take place inside the walls of the maintenance centre and are not expected to impact the local community. We would like to thank you, our closest neighbours, for your ongoing support as we work to deliver an improved rail network.

To improve service reliability, other agencies such as Sydney Trains have also been completing track maintenance work in the centre. *For more information about Sydney Trains' activity, please call 131 500 or visit transportnsw.info*

For more information

For any enquiries please contact our project team on **1800 931 189** or **projects@transport.nsw.gov.au**
