

Transport for NSW

## Project complete at Sunnyholt Road and Gordon Street, Blacktown

Transport for NSW (Transport) has completed the work and the new bus layover facility at Sunnyholt Road and Gordon Street, Blacktown is now open for bus drivers.

The facility will allow parking for up to 11 buses and support the nearby bus interchange at Blacktown Railway Station. It will provide essential amenities for drivers and help improve on-time running and efficiency of bus services to the local community.

Transport would like to sincerely thank the road users and the community, for their patience while we built the essential infrastructure.

**More bus holding capacity for Blacktown Railway Station interchange**

**More reliable bus travel**

**More amenities for drivers that will increase comfort and contribute to safety and performance**

## Our commitment to help the environment

Installed a 10KW solar power system to the amenity building

Used 500 tonne of recycled road base material

Footpath constructed with recycled plastic fibre reinforcement

Planted 56 new trees and over 6000 new shrubs

Project Infoline 1800 433 998

## Aboriginal Art Mural

Incorporation of Aboriginal art on the retaining wall demonstrates Transport's commitment to respect and acknowledge Aboriginal heritage and connection to land and waters.

## The new bus layover facility

This new facility will make drivers' lives easier and more productive and safer.
