

# More Trains, More Services

## Port Kembla Platform Extension Project

### What's the latest news?

In order to improve train services for customers on the south coast, we are making the platforms longer at Port Kembla station.

In 2020 we started preparing Port Kembla Station for the platform extensions which will make it easier for customers to access all carriages of the New Intercity Fleet.

Last year we completed:

- site surveying and ground investigations
- trenching inside the corridor, creating space for new pipes and cabling associated with new signalling infrastructure
- pit digging for new concrete bases which will accommodate new signalling infrastructure

### What's coming next?

Throughout February, we will be completing:

- cable pulling for signalling routes
- de-vegetation of the embankment adjacent to the existing platform
- installation of handrails for driver access walkways

### What hours will we be working?

Standard construction hours on this project are 7am to 6pm, Monday to Friday, weekends and public holidays.

## How we will minimise construction impacts

The project team understands that construction activities may cause disruption for the community and every effort will be made to minimise impacts where possible including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts to the surrounding community
- locating equipment as far away from residents and businesses as possible
- stopping work at regular intervals to allow for respite periods
- directing lighting away from residents
- installing noise barriers to shield residents from high impact noise activities.

## How are we keeping out sites safe?

In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and all necessary hygiene practices will be observed.

## Would you prefer digital updates?

We are always exploring ways to connect with the communities where we work while minimising impacts on the environment. To help us reduce paper waste, please visit the project webpage [yoursay.transport.nsw.gov.au/mtms-portkembla](https://yoursay.transport.nsw.gov.au/mtms-portkembla) and complete our survey at the bottom of the page to let us know if you would prefer receive our updates to your inbox instead of your mailbox.

## About More Trains, More Services

Over the next ten years the More Trains, More Services program will simplify and modernise the rail network so that customers can expect more frequent train services, with less wait times, less crowding and more seats on a simpler, more reliable network.
