

# Temporary closure: Stoddart Road and Prospect Highway intersection from 17 November

**Prospect Highway Upgrade**  
November 2023

Australian Government

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW Governments are upgrading 3.6 kilometres of Prospect Highway between Reservoir Road, Prospect and St Martins Crescent, Blacktown to reduce congestion and to help meet future traffic demands on this corridor.

## What work are we doing?

Work includes:

- excavation and pavement demolition
- drainage and utility works
- placement of materials
- pavement construction
- kerb and gutter installation
- line marking and barrier installation

## When and where we'll be working?

We will carry out pavement works at Stoddart Road and Prospect Highway intersection from **8pm Friday 17 November to 5am Monday 20 November and from 8pm Friday 24 November to 5am Monday 27 November** (weather permitting).

In the event of bad weather, work may also take place from **8pm Friday 1 December to 5am Monday 4 December**.

## Our work schedule

Work will take place 24 hours a day to in order to get the intersection back open as quickly as possible.

## What will this mean for you?

The night work will involve some use of noisy machinery. We will make every effort to lessen the disturbance where possible, completing noisier work earlier in the evening and turning off vehicles when not in use.

## Traffic changes

Motorists and cyclists travelling on Prospect Highway wanting to access Stoddart Road will need to detour via Blacktown Road. Heavy vehicles will need to detour via Great Western Highway. Both detours will add an extra four-minute travel time.

Electronic message signs will be activated in both directions. Traffic control will be in place during work hours for the safety of workers and road users.

Motorists should follow signs and the traffic controller's direction and allow extra time as there may be minor delays.
