

Redfern Station Upgrade

New Southern Concourse

July 2023

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What's happening in July?

In July, we'll continue work on the New Southern Concourse, new station entrances and shared zones in Little Eveleigh and Marian streets and related works on Lawson, Wilson and Ivy streets. Our work includes:

- Installing scaffolding and steel
- Fitting out lifts, stairs, bridges, platforms and buildings
- Roofing across bridge and platform canopies
- Tiling, painting and cladding installation
- Demolition, material removals and deliveries
- Electrical, stormwater and other utility work
- Excavating, backfilling and concreting
- Installing kerbs, drains, bollards and pavers
- Landscaping including pruning, removal and planting
- Platform resurfacing and tactile installation
- Testing and commissioning services
- Investigative works
- Heritage building works.

When and where we'll work

Our standard construction hours are:

7am - 6pm, Monday to Friday and 8am - 6pm, Saturday.

For the safety of our team, some of our work needs to take place outside the standard hours to coincide with Sydney Trains trackwork, when trains don't run.

In July, we will work on the following weekends:

- **5am Saturday 1 to 6pm Sunday 2 July**
- **6am - 6pm, Saturday 8 and Sunday 9 July**
- **10pm Friday 14 to 2am Monday 17 July**

• 10pm Friday 28 to 2am Monday 31 July

Platform 10 pedestrian access will be closed during the **1 to 2** and **29 to 31 July** trackwork periods.

Also in July, electrical work, testing and commissioning will be conducted at night at 125-127 Little Eveleigh Street. Those impacted will be notified in advance of the work.

Fire hydrant and drencher testing and commissioning will be done in the New Southern Concourse and 125-127 Little Eveleigh Street.

In late July, testing and commissioning of emergency warning systems and public address systems in the New Southern Concourse will take place during the evening.

Material and equipment removal, deliveries, electrical work, testing and commissioning may also occur up to three nights per week, however these activities are not expected to be noisy.

What this might mean for you?

During July you may notice:

- Workers and vehicles
- Traffic controllers and signage
- Noise and vibration from machinery and equipment, such as grinders, jackhammers, power saws, rattle guns, rock hammers/breakers, rollers and vacuum trucks.

Managing our impacts

We reduce noise and vibration by turning off machinery when not in use and, where possible, using noise absorbing blankets. For more information about the project's noise and vibration management, please refer to the *Construction Noise and Vibration Management Plan* which can be viewed on the project webpage: transport.nsw.gov.au/redfern.
